I. Introduction

According to the *Industry Numbering Committee's (INC) ATIS-300050, Carrier Identification Code (CIC) Assignment Guidelines*, carriers are required to submit an Annual CIC Report on an annual basis between January 1 and March 31 for the proceeding 12-month period ending December 31 of the previous year.

II. Purpose

This document provides instructions to assist Service Providers (SP) and Service Provider Consultants (SPC) users with completing the Annual CIC Report and uploading this report directly in the NANP Administration System (NAS).

Failure to comply with the instructions in this user guide may delay the submission of the Annual CIC Report.

III. Required Information

A SP/SPC user is required to have an active NAS account with the **Subscription Choice** of **Other Resources** and the reporting **IAC Code**(s) (aka ACNA) in their user profile prior to submitting the Annual CIC Report.

The CIC Annual Report template may be found at <u>https://www.nanpa.com, under Resources, NAS User</u> <u>Guides, Service Provider/Service Provider Consultant</u>.

A SP/SPC user may upload <u>one</u> Annual CIC Report (XLSX file) per <u>Entity Name</u>. To obtain a list of CICs that are required to be reported on, go to the NANPA website at <u>https://www.nanpa.com</u>, select **Reports**, **Carrier Identification Code (CIC) Reports** and then download the **Feature Group B (FGB) CIC Assignment Report** and **Feature Group D (FGD) CIC Assignment Report**. Query each report for the IAC Code(s) associated with the Entity submitting the Annual CIC Report.

The XLSX file name must be in the following format: **incoming.<ENTITY NAME><CURRENT YYYY>AnnualCICReport.xlsx** (e.g., incoming.Telco2024AnnualCICReport).

IV. Process

The user must complete all fields on the Appendix 1: Annual CIC Report (Figure 1). For a list of field definitions and instruction see

Table 1 – Field Names and Instructions.

When a CIC begins with a zero (0), the CIC field will need to be changed to a text field to ensure the zero isn't dropped.
