Abstract
This IL provides industry notification of the impending split of the 404 NPA.

Letter Information (Includes safety liability disclaimer (if applicable), ordering information, originator's signature information)

We have been advised by BellSouth Telecommunications that increased demand for telephone numbers and other telecommunications needs in the Atlanta area of Georgia necessitates the splitting of the existing 404 NPA and the simultaneous introduction of a new 770 NPA.

The Atlanta exchange area, which includes most of the area inside the Interstate 285 beltway, will retain the 404 NPA. With a few exceptions, the remaining part of the current 404 NPA will change to the new 770 area code.

The split of the 404 NPA, and the beginning of a permissive dialing period, is scheduled for 12:01 AM EDT on Tuesday, August 1, 1995. During the permissive dialing period, either 404 or 770 will be acceptable in a dialed number terminating in the new 770 NPA. The permissive dialing period will end at 12:01 AM EST on Friday, December 1, 1995. After the permissive period, calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. Changes to the local exchange routing information will be incorporated into the LERG and the NPA NXX Activity Guide (NNAG).

Central offices in the area to be served by the 770 NPA will be modified on a progressive basis to transmit "770" in the calling number Automatic Number Identification (ANI) between August 1, 1995 and November 1, 1995. BellSouth will convert all pertinent records to 770 the weekend of July 28, 1995. This includes customer service records and associated NPA information in other systems. After July 30, 1995, all inquiries must refer to the correct NPA code.

The attached map illustrates the 440 and 770 NPA configuration after the split. A listing of the communities and exchange prefixes to be included in each area code after the split is also attached.

Test calls to verify routing to the new 770 NPA can be made by calling 1-770-666-9999, effective July 1, 1995. A recorded announcement will indicate that the test call has been successfully completed.

Title NANP-Split of 404 (Georgia) Numbering Plan Area (NPA)		Project Number(s) 5V1000.17	

The following dialing procedures will exist for the 404 and 770 NPAs in Georgia:

All intra-NPA "local" calls (generally calls that do not incur a charge) will be dialed on a seven digit basis with no prefix; i.e., NXX + XXXX (seven digits). Permissive ten digit dialing will be allowed for these calls, i.e., NPA + NXX + XXXX (ten digits).

All inter-NPA "local" calls will be dialed on a ten digit basis and no prefix; i.e., NPA + NXX + XXXX (ten digits).

All inter-NPA direct dialed "toll" calls (generally calls that incur an additional charge) will be dialed with a prefix "1" and then ten digits; i.e., 1 + NPA + NXX + XXXX (1 + ten digits). Note: there is no toll calling within or between the 404 and 770 NPAs.

- All operator assisted calls (both intra and inter NPA) including credit card, collect, and third party calls will be dialed with either a "0" or a "10XXXX + 0" prefix and ten digits; i.e., 0 + NPA + NXX + XXXX, or 10XXXX + 0 + NPA + NXX + XXXX.

Questions concerning NPA relief project coordination should be directed to Jay Murphy, BellSouth Telecommunications, on (404) 391-3370. General questions concerning the split and dialing procedures may be directed to Stan Washer, BellSouth Telecommunications, on (205) 977-2668.

Copies of this letter are being forwarded to achieve the widest possible industry distribution and may be reproduced for further distribution as needed. Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at (908) 699-6612, or by fax on (908) 336-3293.
