

## North American Numbering Plan Planning Letter

Number: PL-NANP-004  
Date: August 5, 1996  
From: J. N. Deak - NANP Administration  
908-699-6612, jdeak @ notes.cc.bellcore.com  
Subject: NANP - Introduction of New 671 (Guam) Numbering Plan Area (NPA)

---

At the request of its government, and with the concurrence of the participating nations, Guam has joined the area served by the North American Numbering Plan, and has been assigned NPA code 671.

Existing 7-digit local telephone numbers in Guam will be mapped unchanged into 7-digit NANP numbers within the 671 NPA. The Guam Telephone Authority (GTA), on behalf of the Government of Guam, will administer central office codes within the 671 NPA.

The incorporation of Guam into the area served by the NANP will take place at 12:01 AM Guam Time (GT) on Tuesday, July 1, 1997 (14:01 hours, June 30, 1997 GMT). This will signal the start of a 12-month permissive dialing period, which will continue until 12:00 AM GT on Wednesday, July 1, 1998. During the permissive period, calls to Guam may be dialed as they are today or, alternately, may be dialed using new procedures which will become mandatory after the permissive period expires. For example, calls to Guam from the US during the permissive period may be dialed as 011 + 671 + 7-digits as they are today, or by dialing 1 + 671 + 7-digits which will become mandatory after the permissive period. The attached chart shows the dialing procedures for Guam during and after the permissive dialing period.

All international and domestic carriers are urged to ensure that the new 671 NPA has been activated throughout their networks prior to July 1, 1997. A test number, 671-479-GUAM (671-479-4826), will be activated on April 1, 1997 and will remain operational until June 30, 1998. GTA will provide assistance for problems encountered in terminating calls to the new 671 NPA. This assistance can be obtained by calling, using the old dialing procedures, the international access code, followed by country code (671) followed by the 7-digit help number (477-4684). This number will be staffed 24 hours a day, 7 days a week.

Attached is a map showing Guam, the area covered by the new 671 NPA, and also a listing of the current central office codes that will be located in the 671 NPA.

Questions concerning the introduction of the 671 NPA may be referred to Carl P. Leon Guerrero, Chief Engineer, GTA, or Frank Dela Rosa, GTA, both at country code (671) 632-3312, or by facsimile at country code (671) 632-3337.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
