Subject: Declaration of Jeopardy Situation in NPA 212 (New York)

We have been advised by NYNEX - New York, central office code administrator for the 212 Numbering Plan Area (NPA), that demand for NXX codes in the 212 NPA in New York City has increased significantly beyond the normal forecast. As a result, the 212 NPA is in jeopardy of exhausting prior to when relief can be provided. According to the *Central Office Code (NXX) Assignment Guidelines*, "A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief."

Relief planning for the 212 NPA will begin immediately to prevent the NXX supply from exhausting prior to the anticipated two year planning and implementation period. Until relief can be provided, the special conservation measures outlined in Section 8.4 and other appropriate sections of the *Central Office Code (NXX) Assignment Guidelines* will be invoked for the 212 NPA (refer to document INC 95-0407-008, revision 9/96).

Questions concerning the relief of the 212 NPA and NXX conservation measures may be directed to Steven J. McDermott, Code Administrator, NYNEX - New York, at 212-285-7323.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
