Number: PL-NANP-022
Date: November 22, 1996

Subject: NANP-Split of 415 (California) Numbering Plan Area (NPA)

We have been advised by Pacific Bell, the California Code Administrator (CCA), that substantial number growth in the San Francisco area of California necessitates providing area code relief for the 415 NPA. The relief plan, approved by the California Public Utilities Commission, calls for a geographic split of the 415 NPA and the simultaneous introduction of a new 650 NPA. The following is a description of this relief plan.

The existing 415 NPA will be split just south of San Francisco. Communities and areas north of the boundary will retain the 415 NPA and include San Francisco, Marin County, most of Brisbane and part of Daly City. The remaining communities in the current 415 NPA, which include Millbrae, San Bruno, South San Francisco, part of Daly City, part of Brisbane, and the San Francisco airport, will transfer to the new 650 NPA.

The split of the 415 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Daylight Time (PDT) on Saturday, August 2, 1997. The permissive dialing period will end at 2:00 AM PST on Saturday, January 31, 1998. During the permissive dialing period, either the 415 or 650 NPA code will be acceptable in a dialed number terminating in the new 650 NPA for all central office codes (NXXs) in service prior to the beginning of the permissive period. *Please note:* For NXXs that are opened in the 415 and 650 NPAs after the start of the permissive dialing period, the calling party must dial the appropriate NPA. Calls to these NXXs will be routed to intercept if the incorrect NPA is dialed. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The attached map illustrates the 415 and 650 NPA configuration after the split. Also attached are listings of the assigned NXXs for the 415 and 650 NPAs as of October 1, 1996. The NXX information provided includes NPA, switch identification, rate center identification and rate center name, and is sorted two ways: by NXX and by rate center name. Updated NXX information may also be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 650 NPA has been activated throughout their networks prior to August 2, 1997. Test calls to verify routing to the new NPA can be made by dialing 650-777-0650, effective May 17, 1997. It is not expected the test number can be reached from outside the 415 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected May 1998.

The dialing plan for the 415 and 650 NPAs will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

The CCA has indicated the 415 NPA remains in a jeopardy situation, as described in Bellcore Information Letter, IL 96/03-002, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines*. Furthermore, because of increased demand for central office codes and the possibility of premature exhaust, the CCA has applied *special and extraordinary NPA-specific* conservation measures per Section 8 of the guidelines.

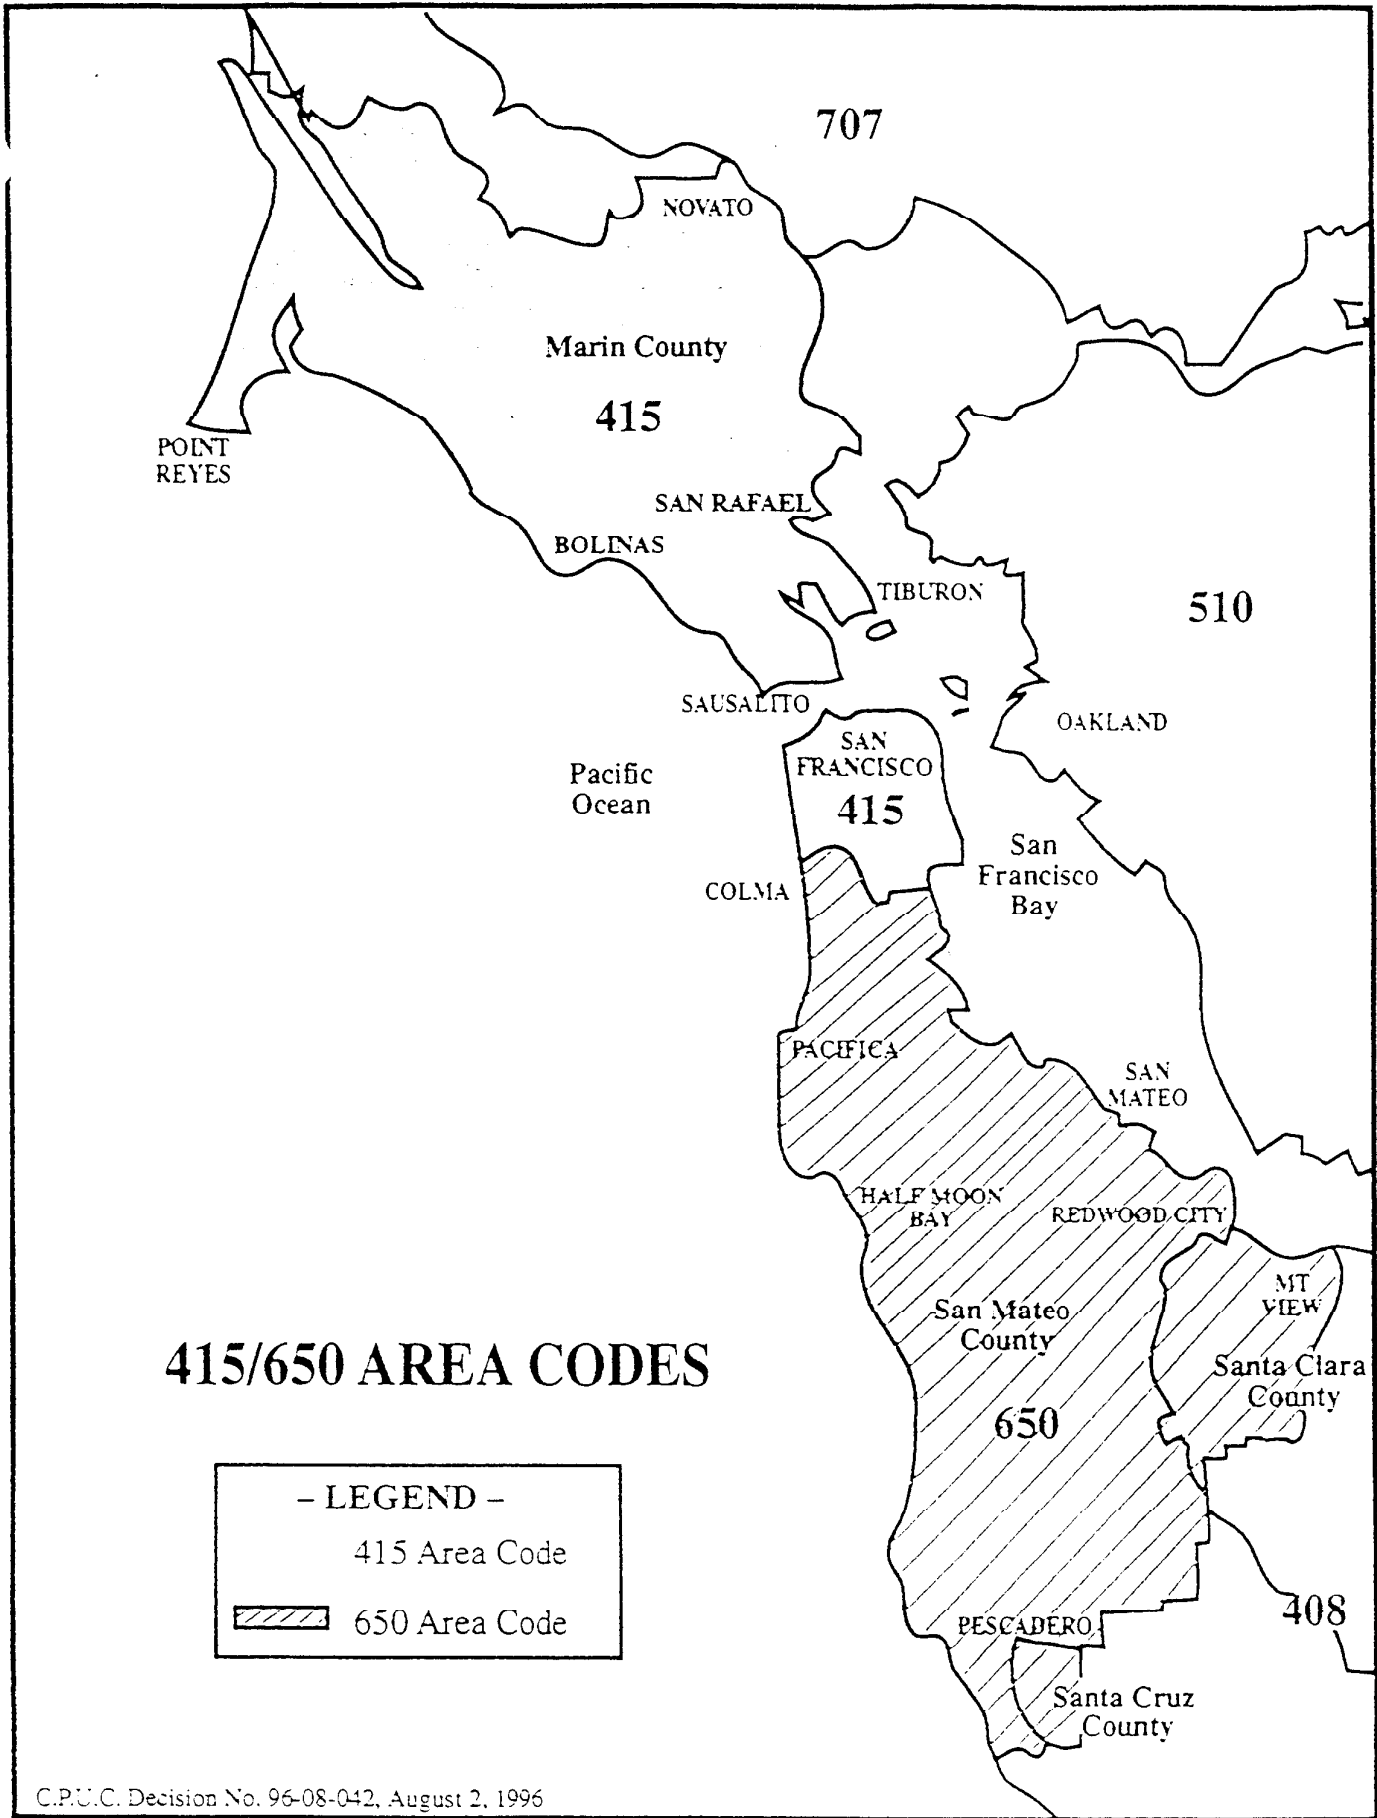

General questions concerning the split of the 415 NPA and NXX code conservation measures, may be directed to the CCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 510-824-7932.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
