

North American Numbering Plan Planning Letter

Number: PL-NANP-028
Date: January 2, 1997

Subject: NANP-Split of 818 (California) Numbering Plan Area (NPA)

We have been advised by the California Code Administrator (CCA) that substantial number growth in the Los Angeles area of California necessitates providing area code relief for the 818 NPA. The relief plan, approved by the California Public Utilities Commission, calls for a geographic split of the 818 NPA and the simultaneous introduction of a new 626 NPA. The following is a description of this relief plan.

The existing 818 NPA will be split along the city boundary between Pasadena on the east and Glendale and La Canada Flintridge on the west. Communities west of the boundary will retain the 818 NPA. The new 626 NPA will serve the cities east of the new boundary. Attached are listings of the communities that will be included in the 818 and 626 NPAs after the split.

The split of the 818 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM PDT on Saturday, June 14, 1997. The permissive dialing period will end at 2:00 AM PST on Saturday, February 21, 1998. During the permissive dialing period, either the 818 NPA or 626 NPA code will be acceptable in a dialed number terminating in the new 626 NPA for all central office codes (NXXs) in service prior to the beginning of the permissive period. *Please note:* For NXXs that are opened in the 818 and 626 NPAs after the start of the permissive period, the calling party must dial the appropriate NPA. Calls to these NXXs will be routed to an incorrect party or to intercept if the incorrect NPA is dialed. After the permissive period, calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The attached map illustrates the 818 and 626 NPA configuration after the split. Also attached are listings of the assigned NXXs for the 818 and 626 NPAs as of November 1, 1996. The NXX information includes NPA, switch identification, rate center identification and rate center name, and is sorted two ways: numerically by NXX and alphabetically by rate center name. Since NXX information may change over time, updated NXX information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 626 NPA has been activated throughout their networks prior to June 14, 1997. Test calls to verify routing to the new 626 NPA can be made by dialing 626-777-0626, effective May 17, 1997. It is not expected the test number can be reached from outside the 818 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected August 1998.

The dialing plan for the 818 and 626 NPA will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

General questions concerning the split of the 818 and 626 NPAs may be directed to the CCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 818-308-8799.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
