

North American Numbering Plan Planning Letter

Number: PL-NANP-044
Date: March 6, 1997
From: J. N. Deak - NANP Administration

Subject: NANP-Split of 714 (California) Numbering Plan Area (NPA)

We have been advised by the California Code Administrator (CCA) that substantial number growth in the Orange County area of southern California necessitates providing area code relief for the 714 NPA. The relief plan, approved by the California Public Utilities Commission, calls for a geographic split of the 714 NPA and the simultaneous introduction of a new 949 NPA. The following is a description of this relief plan.

The northern portion of the current 714 NPA including Huntington Beach, Santa Ana and Tustin will retain the 714 NPA. The remainder of the 714 NPA, which includes Costa Mesa and Irvine in the south, will transfer to the new 949 NPA. A listing of cities to be served in each NPA after the split is attached.

The split of the 714 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Daylight Time (PDT) on Saturday, April 18, 1998. The permissive dialing period will end at 2:00 AM PDT on Saturday, October 17, 1998. During the permissive dialing period, either the 714 or 949 NPA code will be acceptable in a dialed number terminating in the new 949 NPA for all central office codes (NXXs) in service prior to the beginning of the permissive period. *Please note:* For NXXs that are opened in the 714 and 949 NPAs after the start of the permissive dialing period, the calling party must dial the appropriate NPA. Calls to these NXXs will be routed to an incorrect party or to intercept if the incorrect NPA is dialed. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The attached map illustrates the 714 and 949 NPA configuration after the split. Another map shows street detail to assist in locating the boundary between the 714 and 949 NPAs. Also attached are listings of the assigned NXXs for the 714 and 949 NPAs as of February 1, 1997. The NXX information provided includes NPA, switch identification, rate center identification and rate center name, and is sorted two ways: numerically by NXX and alphabetically by rate center name. Since the attached NXX information may change over time, updated NXX information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 949 NPA has been activated throughout their networks prior to April 18, 1998. Test calls to verify routing to the new NPA can be made by dialing 949-777-0949, effective March 16, 1998. It is not expected the test number can be reached from outside the 714 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected January 1999.

The dialing plan for the 714 and 949 NPAs will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

The California Code Administrator (CCA) has indicated the 714 NPA remains in a jeopardy situation, as described in Bellcore Planning Letter, PL-NANP-027, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines*. Furthermore, because of increased demand for central office codes and the possibility of premature exhaust, the CCA has applied *special and extraordinary NPA-specific* conservation measures per Section 8 of the guidelines.

General questions concerning the split of the 714 NPA and NXX code conservation measures, may be directed to the CCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 818-570-5320.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
