Subject: Declaration of Jeopardy Situation in NPA 770 (Georgia)

We have been advised by BellSouth, central office code administrator for the 770 Numbering Plan Area (NPA) in Georgia, that the demand for NXX codes in the Atlanta free calling area is expected to increase significantly beyond the normal forecast. Exhaust is now anticipated in 2Q98. As a result, the 770 NPA is in jeopardy of exhausting prior to when relief can be provided. According to the *Central Office Code (NXX) Assignment Guidelines*, "A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief."

Until relief can be provided, the special conservation measures outlined in Section 8.4 and other appropriate sections of the *Central Office Code (NXX) Assignment Guidelines* will be invoked for the 770 NPA (refer to document INC 95-0407-008, revision 9/96).

Questions concerning the relief of the 770 NPA may be directed to Stan Washer, BellSouth, at 205-977-2668.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
