

North American Numbering Plan Planning Letter

Number: PL-NANP-061

Date: May 19, 1997

From: J. N. Deak - NANP Administration
908-699-6612, jdeak @ notes.cc.bellcore.com

Subject: NANP-Split of 510 (California) Numbering Plan Area (NPA)

We have been advised by the California/Nevada Code Administrator (C/NCA) that substantial number growth in California necessitates providing area code relief for the 510 NPA. The relief plan, approved by the California Public Utilities Commission in Decision 97-02-017, calls for a geographic split of the 510 NPA and the simultaneous introduction of a new 925 NPA. The following is a description of this relief plan.

The existing 510 NPA will be split along a north/south boundary such that areas to the west of the boundary, which include Richmond, Berkeley, Oakland and Fremont, will retain the 510 NP. Areas to the east including Martinez, Concord, Dublin and Livermore will transfer to the new 925 NPA.

The split of the 510 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Standard Time (PST) on Saturday, March 14, 1998. The permissive dialing period will end at 2:00 AM PDT on Saturday, September 12, 1998. During the permissive dialing period, either the 510 or 925 NPA code will be acceptable in a dialed number terminating in the new 925 NPA. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

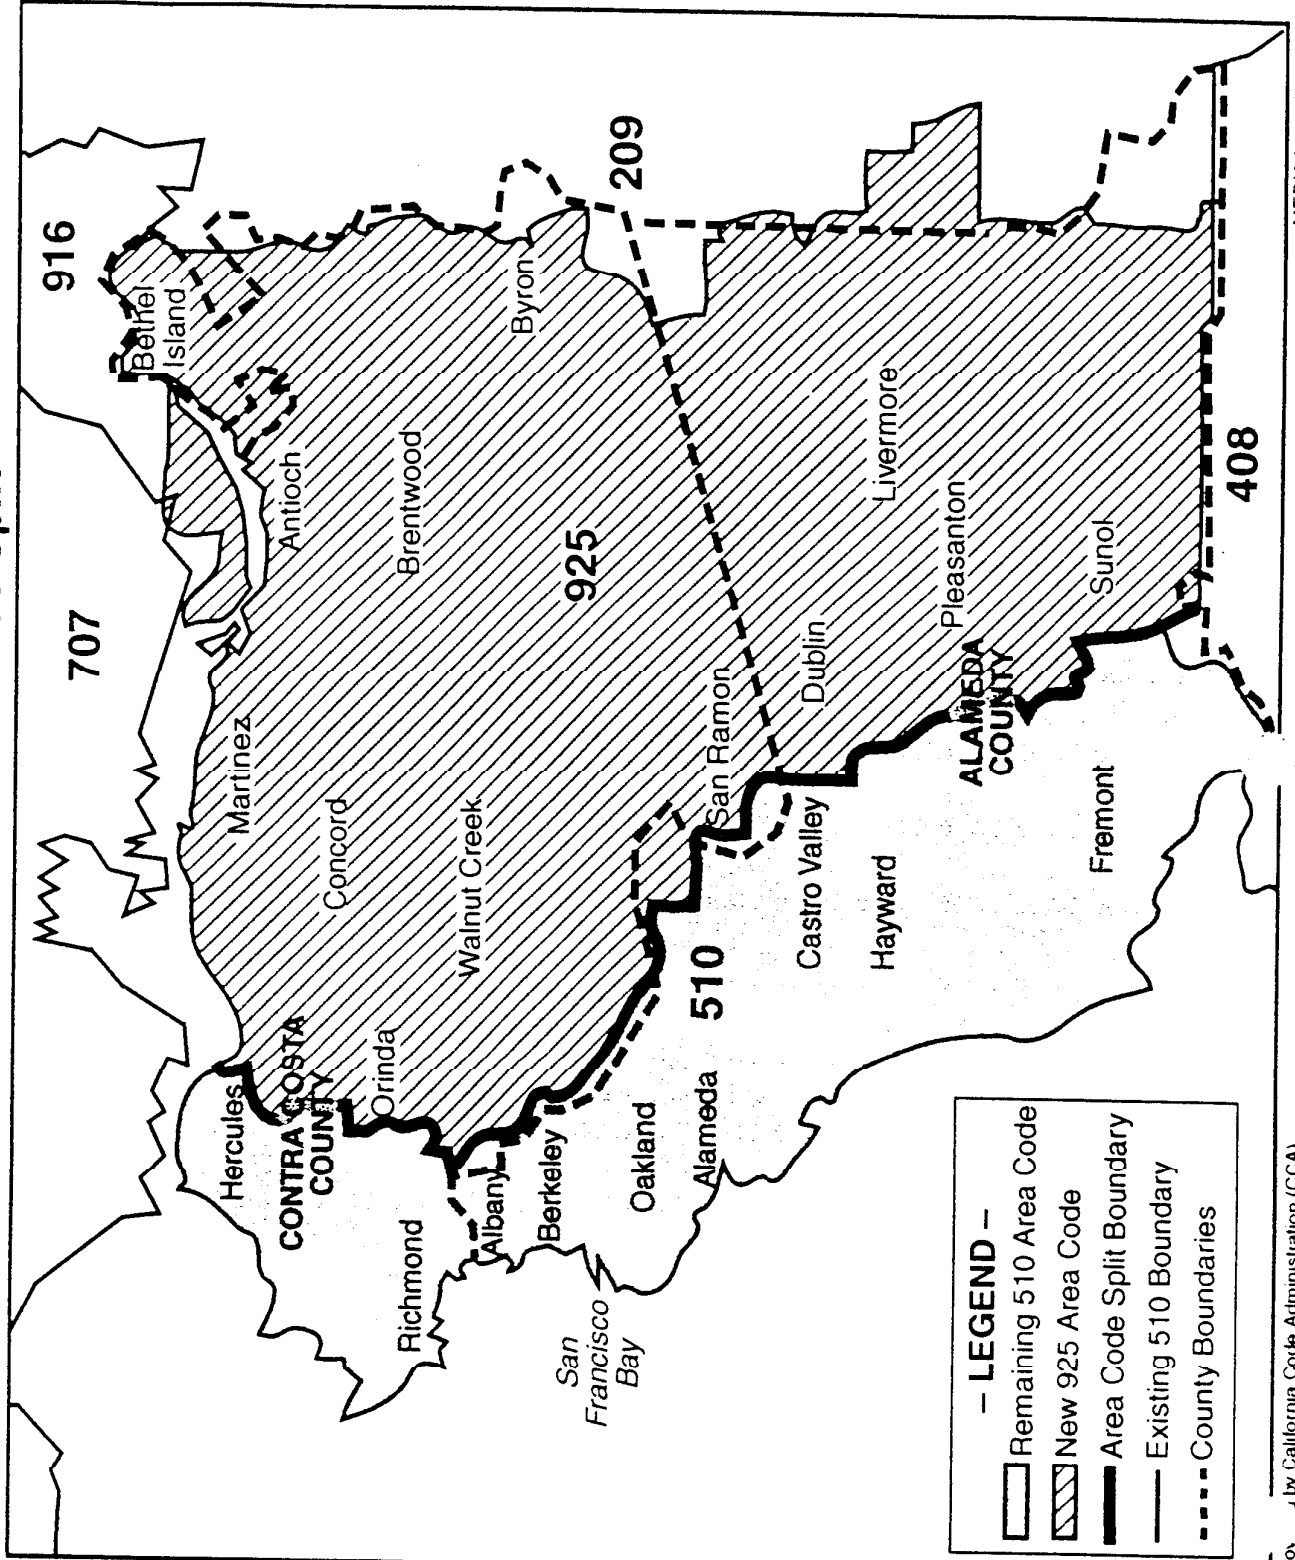

The attached map illustrates the 510 and 925 NPA configuration after the split. Also attached are listings of the assigned central office codes (NXXs) and Rate Centers that will be associated with the 510 and 925 NPAs. These lists reflect assignments published in the LERG as of May 1, 1997. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 925 NPA code has been activated throughout their networks prior to March 14, 1998. Test calls to verify routing to the new NPA code can be made by dialing 925-666-0925, effective January 17, 1998. It is not expected the test number can be reached from outside the 510 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected January 1999.

The dialing plan for the 510 and 925 NPAs will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).

510 - 925 Area Code Split

— LEGEND —

-  Remaining 510 Area Code
-  New 925 Area Code
-  Area Code Split Boundary
-  Existing 510 Boundary
-  County Boundaries

510 / 925 Area Code Split Serving Area Summary

The following cities, towns, communities and institutions will be served from the new 925 area code:

Alamo
Antioch
Avon
Bay Point
Bethel Island
Bishop Ranch
Blackhawk
Brentwood
Byron
Clayton
Clyde
Concord
Danville
Diablo
Discovery Bay
Dublin
Knightsen
Lafayette
Lawrence Livermore Laboratory
Livermore
Martinez
Moraga
Oakley
Orinda
Pacheco
Pittsburg
Pleasant Hill
Pleasanton
San Ramon
Sunol
Walnut Creek

North American Numbering Plan Planning Letter

Number: PL-NANP-062
Date: May 19, 1997
From: J. N. Deak - NANP Administration
908-699-6612, jdeak @ notes.cc.bellcore.com
Subject: NANP-Split of 213 (California) Numbering Plan Area (NPA)

We have been advised by the California/Nevada Code Administrator (C/NCA) that substantial number growth in Los Angeles, CA necessitates providing area code relief for the 213 NPA. The relief plan, approved by the California Public Utilities Commission in Decision 97-02-017, calls for a geographic split of the 213 NPA and the simultaneous introduction of a new 323 NPA. The following is a description of this relief plan.

The central portion of Los Angeles will retain the 213 NPA, with the surrounding area of the existing 213 NPA transferring to the new 323 NPA.

The split of the 213 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Daylight Time (PDT) on Saturday, June 13, 1998. The permissive dialing period will end at 2:00 AM PST on Saturday, January 16, 1999. During the permissive dialing period, either the 213 or 323 NPA code will be acceptable in a dialed number terminating in the new 323 NPA. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The attached map illustrates the 213 and 323 NPA configuration after the split. Also attached are listings of the assigned central office codes (NXXs) and Rate Centers that will be associated with the 213 and 323 NPAs. These lists reflect assignments published in the LERG as of May 1, 1997. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 323 NPA code has been activated throughout their networks prior to June 13, 1998. Test calls to verify routing to the new NPA code can be made by dialing 323-999-0323, effective April 18, 1998. It is not expected the test number can be reached from outside the 510 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected April 1999.

The dialing plan for the 213 and 323 NPAs will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.

- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

The C/NCA has indicated the 213 NPA remains in a jeopardy situation, as described in Bellcore Planning Letter, PL-NANP-054, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0470-008). Furthermore, because of increased demand for central office codes and the possibility of premature exhaust, the C/NCA has applied *special and extraordinary NPA-specific* conservation measures per Section 8 of the guidelines and described in the above Planning Letter.

General questions concerning the split of the 213 NPA, as well as 323 NPA and NXX code conservation measures, may be directed to the C/NCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 818-570-5546.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
