Subject: NANP-Split of 408 (California) Numbering Plan Area (NPA)

We have been advised by the California/Nevada Code Administrator (C/NCA) that substantial number growth in central California necessitates providing area code relief for the 408 NPA. The relief plan, approved by the California Public Utilities Commission in Decision 97-02-017, calls for a geographic split of the 408 NPA and the simultaneous introduction of a new 831 NPA. The following is a description of this relief plan.

The existing 408 NPA will be split such that communities north of the split boundary which includes Sunnyvale, San Jose, Los Gatos and Gilroy will retain the 408 NPA. Communities in the southern portion of the existing 408 NPA, including Santa Cruz, Salinas, Monterey and Hollister, will transfer to the new 831 NPA.

The split of the 408 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Daylight Time (PDT) on Saturday, July 11, 1998. The permissive dialing period will end at 2:00 AM PST on Saturday, February 20, 1999. During the permissive dialing period, either the 408 or 831 NPA code will be acceptable in a dialed number terminating in the new 831 NPA. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The attached map illustrates the 408 and 831 NPA configuration after the split. Also attached are listings of the assigned central office codes (NXXs) and Rate Centers that will be associated with the 408 and 831 NPAs. These lists reflect assignments published in the LERG as of May 1, 1997 and are sorted two ways: numerically by NXX and alphabetically by Rate Center name. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract, from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 831 NPA code has been activated throughout their networks prior to July 11, 1998. Test calls to verify routing to the new NPA code can be made by dialing 831-666-0831, effective May 16, 1998. It is not expected the test number can be reached from outside the 408 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected May 1999.

The dialing plan for the 408 and 831 NPAs will remain the same, namely:

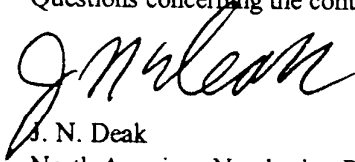

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.

- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

The C/NCA has indicated the 408 NPA remains in a jeopardy situation, as described in Bellcore Planning Letter, PL-NANP-054, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0470-008). Because of increased demand for central office codes and the possibility of premature exhaust, the C/NCA has applied *special and extraordinary NPA-specific* conservation measures per Section 8 of the guidelines on May 5, 1997 as described in the above Planning Letter.

General questions concerning the split of the 408 NPA, as well as 831 NPA and NXX code conservation measures, may be directed to the C/NCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 510-824-7932.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
