Date: June 23, 1997

Subject: NANP-Split of 916 (California) Numbering Plan Area (NPA)

---

We have been advised by the California/Nevada Code Administrator (C/NCA) that substantial number growth in northern California necessitates providing area code relief for the 916 NPA. The relief plan, approved by the California Public Utilities Commission (CPUC) in Decision 97-06-067, calls for a geographic split of the 916 NPA and the simultaneous introduction of a new 530 NPA. In addition, the CPUC, in Decision 97-03-049, approved the transfer of the Dixon Rate Center from the existing 916 NPA to the existing 707 NPA. The following is a description of this relief plan.

Most of Sacramento County, including the state capitol of Sacramento, and portions of five adjacent counties will retain the 916 NPA. The remaining portion of the existing 916 NPA will transfer to the new 530 NPA. Additionally, in a boundary realignment, the 678 and 693 exchanges in the Dixon Rate Center, currently in the existing 916 NPA, will transfer to the existing 707 NPA. Customers in the Dixon Rate Center will not be required to change their 7-digit numbers.

The split of the 916 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Standard Time (PST) on Saturday, November 1, 1997. The permissive dialing period will end at 2:00 AM PDT on Saturday, May 16, 1998. During the permissive dialing period, either the 916 or the 530 NPA code will be acceptable in a dialed number terminating in the new 530 NPA. After the permissive period, all calls dialed with an incorrect NPA code, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The boundary realignment of the 916 and 707 NPAs, and the beginning of a permissive dialing period, will take place at 2:00 AM PDT on Saturday, October 4, 1997. The permissive dialing period will end at 2:00 AM PDT on Saturday, May 16, 1998. During the permissive dialing period, either the 916 or the 707 NPA will be acceptable in a dialed number terminating to a Dixon Rate Center NXX. After the permissive period, calls dialed with an incorrect 916 NPA code will be routed to intercept.

The attached maps illustrate the 916, 530 and 707 NPA configurations after the split and boundary realignment. Also attached are listings of the assigned NXXs and Rate Centers that will be associated with the 916 and 530 NPAs. These lists reflect assignments published in the LERG as of June 1, 1997 and are sorted two ways: numerically by NXX and alphabetically by Rate Center name. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 530 NPA code has been activated throughout their networks prior to November 1, 1997. Test calls to verify routing to the new NPA code can be made by dialing 530-444-0530, effective October 11, 1997. It is not expected the test number can be

reached from outside the 916 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected June 1998.

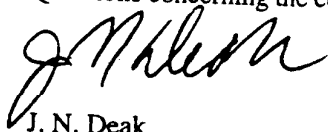

The dialing plan for the 916 and 530 NPAs will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

The C/NCA has indicated the 916 NPA remains in a jeopardy situation, as described in Bellcore Planning Letter, PL-NANP-060, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0470-008). Because of increased demand for central office codes and the possibility of premature exhaust, the C/NCA has applied *special and extraordinary NPA-specific conservation* measures per Section 8 of the guidelines on May 22, 1997 as described in the above Planning Letter.

General questions concerning the split of the 916 NPA, and related code conservation measures, may be directed to the C/NCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 916-972-2752.

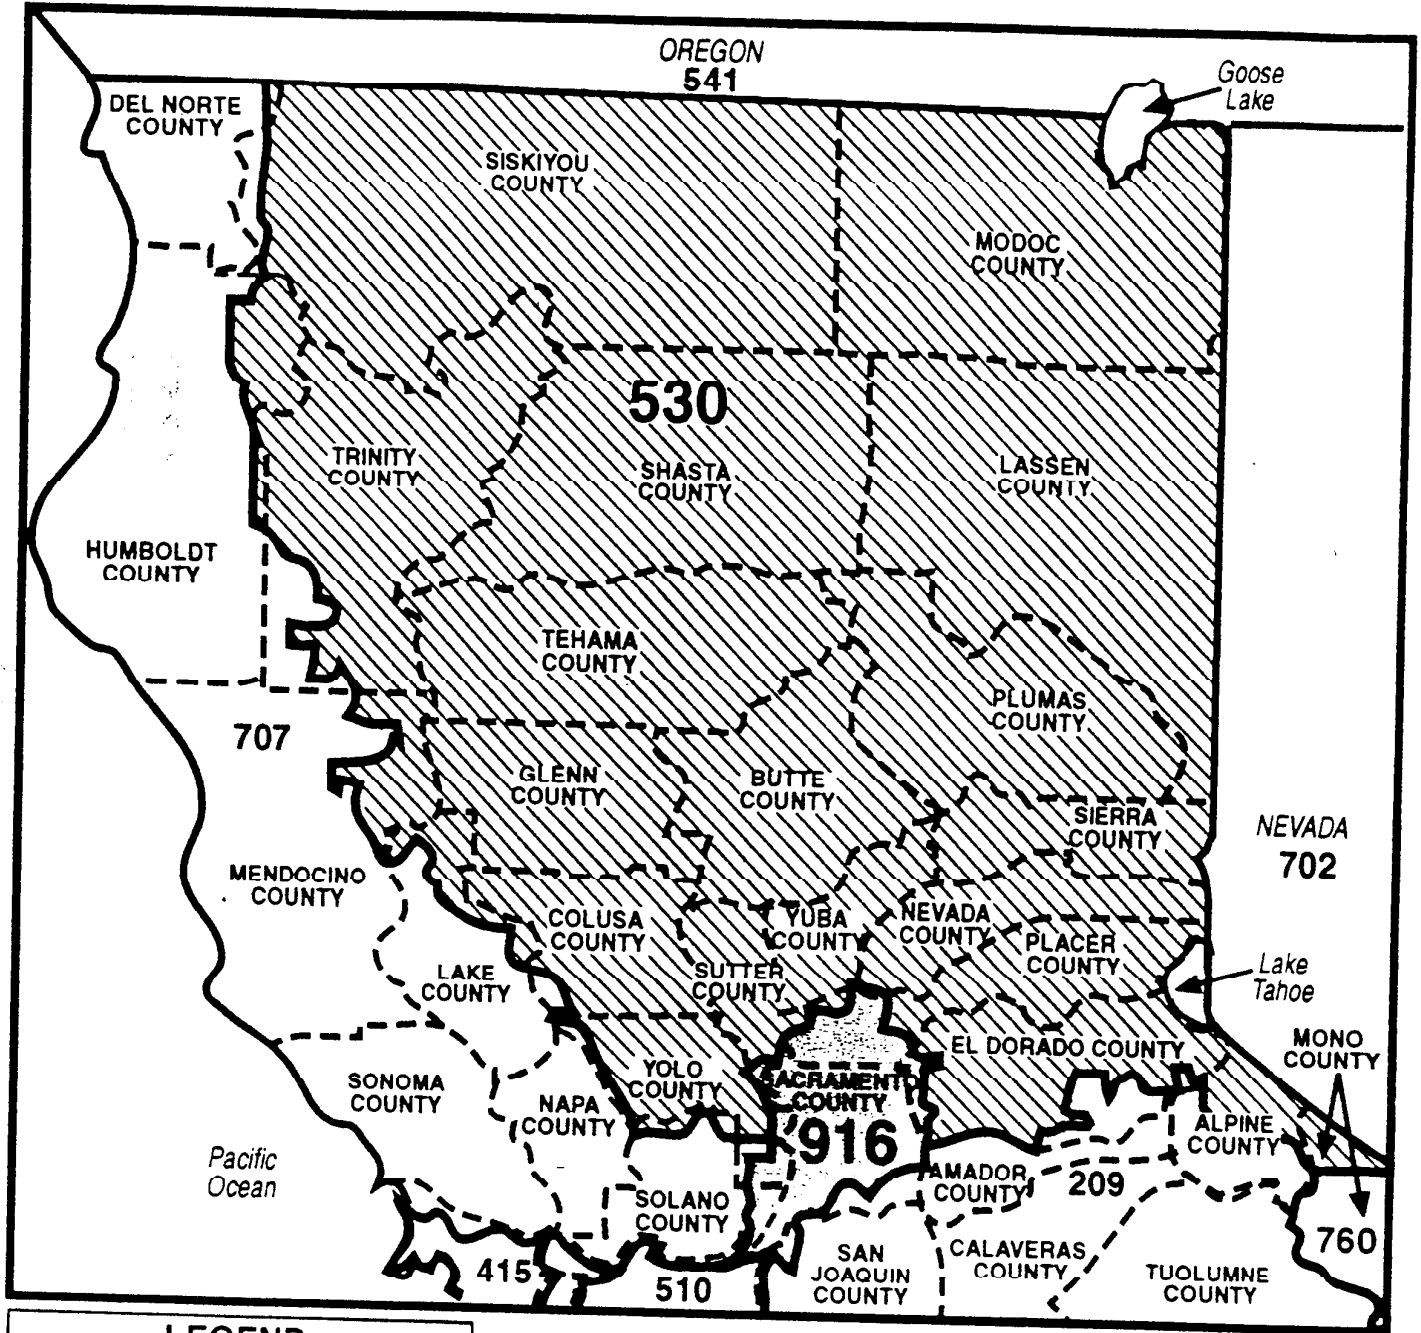

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 732-699-6612.
