

## North American Numbering Plan Planning Letter

Number: PL-NANP-079

Date: July 31, 1997

From: J. N. Deak - NANP Administration  
732-699-6612, jdeak @ notes.cc.bellcore.com

Subject: NANP-Split of 601(Mississippi) Numbering Plan Area (NPA)

---

We have been advised by BellSouth that continued telephone number growth throughout the state of Mississippi necessitates providing area code relief for the 601 Numbering Plan Area (NPA). The relief plan, approved by the Mississippi Public Service Commission, calls for a geographic split of the 601 NPA and the simultaneous introduction of a new 228 NPA. The following is a description of this relief plan.

The Jackson Local Access and Transport Area (LATA) will retain the 601 NPA and the remaining portion of the current 601 NPA, which includes the Biloxi LATA, will transfer to the new 228 NPA.

The split of the 601 NPA, and the beginning of a permissive dialing period, will take place at 12:01 AM Central Daylight Time (CDT) on Monday, September 15, 1997. The permissive dialing period will end at 12:01 AM CDT on Monday, September 14, 1998. During the permissive dialing period, either the 601 or 228 NPA code will be acceptable in a dialed number terminating in the new 228 NPA. After the permissive period, all calls dialed with the incorrect NPA code, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. Changes in the local exchange routing information will be incorporated into the LERG and the NPA NXX Activity Guide (NNAG) and will be available by June 1, 1997.

BellSouth will convert all pertinent records to 228 the weekend of September 12-14, 1997. This includes customer service records and associated NPA information in other systems. After September 15, 1997, all inquiries must refer to the correct NPA code.

The attached map illustrates the 601 and 228 NPA configuration after the split. Also attached are listings of the communities and central office codes (NXXs) in the 601 and 228 NPAs as of July 1, 1997. Since NXX information may change over time, updated NXX information may be found either in the LERG or the NNAG. Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 228 NPA has been activated throughout their networks prior to September 15, 1997. Test calls to verify routing to the new NPA can be made by dialing 228-388-8186, which will be established on or before August 15, 1997. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected on October 1, 1998.

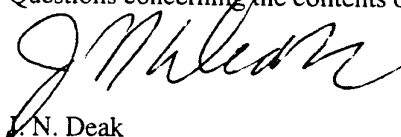

The following dialing procedures will continue for the 601 and 228 NPAs:

- All home NPA (HNPA) and foreign NPA (FNPA) local calls will be dialed on a 7-digit basis with no prefix, i.e., NXX + XXXX (7 digits).

- All HNPA direct dialed toll calls, i.e., calls that generally incur an extra charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).
- All foreign FNPA direct dialed toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

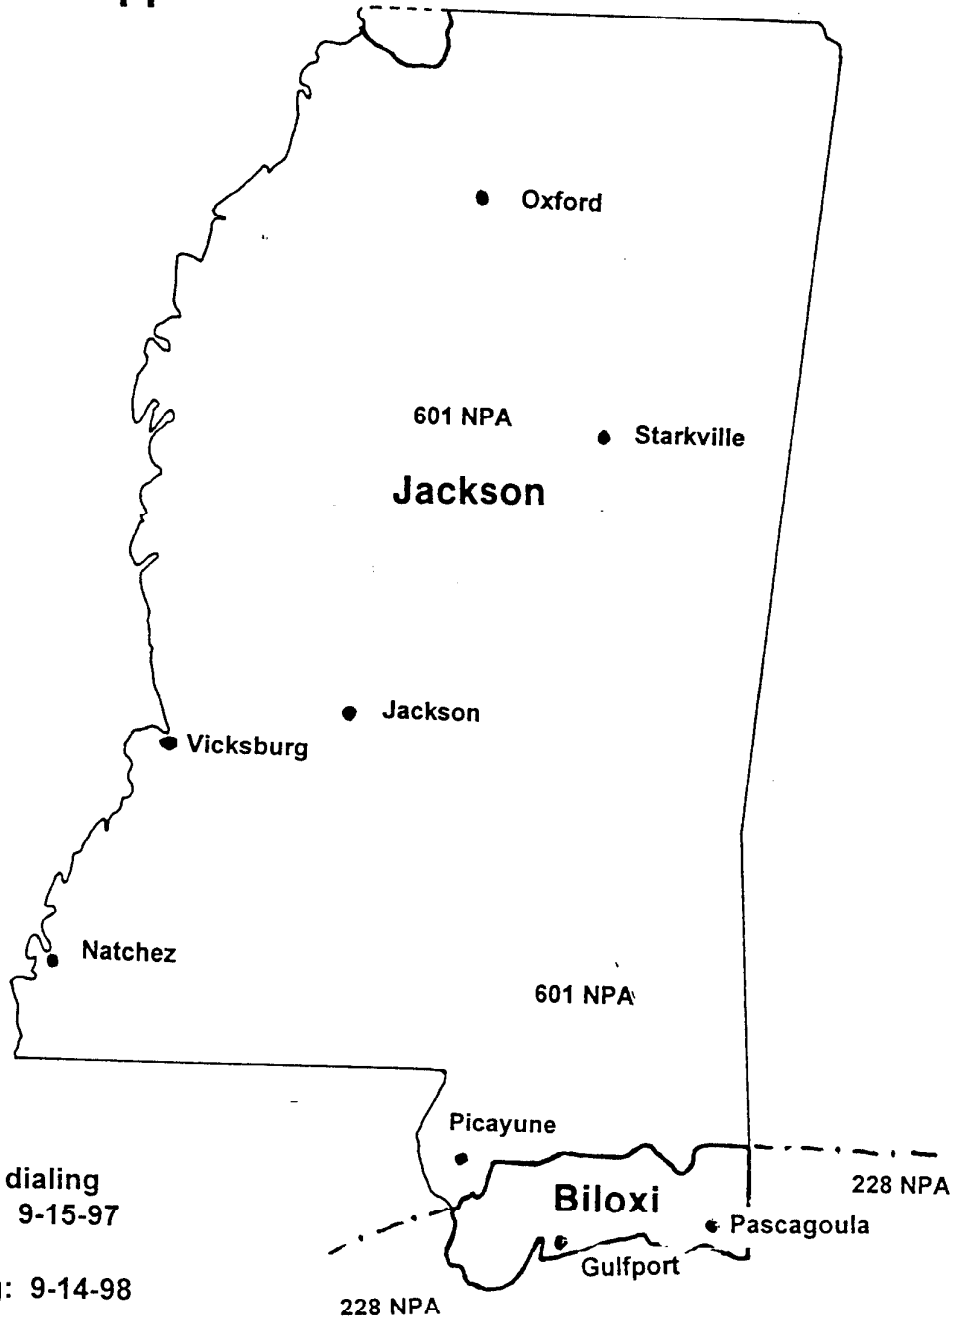

Questions concerning the split of the 601 NPA may be directed to Doreen Douglas, BellSouth, at 601-961-1048, or to the BellSouth NPA Code Administrator, Stan Washer, at 205-977-2668.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 732-699-6612.
