

North American Numbering Plan Planning Letter

Number: PL-NANP-081

Date: August 15, 1997

From: J. N. Deak - NANP Administration
732-699-6612, jdeak @ notes.cc.bellcore.com

Subject: NANP-Split of 615 (Tennessee) Numbering Plan Area (NPA)

We have been advised by BellSouth that continued telephone number growth throughout the state of Tennessee necessitates providing area code relief for the 615 Numbering Plan Area (NPA). The relief plan, approved by the Tennessee Public Service Commission, calls for a geographic split of the 615 NPA and the simultaneous introduction of a new 931 NPA. The following is a description of this relief plan.

The plan calls for the Nashville Metropolitan Calling area in North Central Tennessee, plus Cannon, DeKalb, Dickson, Macon, Smith and Trousdale Counties, to retain the 615 area code. The balance of the existing 615 NPA will be assigned to the new 931 area code.

The split of the 615 NPA, and the beginning of a permissive dialing period, is scheduled for 12:01 A.M. Central Daylight Time, Monday, September 15, 1997. The permissive dialing period will end at 12:01 AM Central Standard Time on Monday, January 19, 1998. During the permissive dialing period, either 615 or 931 will be acceptable in a dialed number terminating in the new 931 NPA. After the permissive period, calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. Changes in the local exchange routing information will be incorporated into the LERG and the NPA NXX Activity Guide (NNAG) and will be available in August, 1997.

BellSouth will convert all pertinent records to 931 the weekend of September 13-14, 1997. This includes customer service records and associated NPA information in other systems. After September 15, 1997, all inquiries must refer to the correct NPA code.

The attached map illustrates the 615 and 931 configuration after the split. A current listing of the codes and communities to be served by each area code after the split is also attached. Since central office code information may change over time, updated NXX code information may be found either in the LERG or the NNAG. Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 931 NPA has been activated throughout their networks prior to September 15, 1997. Test calls to verify routing to the new 931 NPA can be made by dialing 1+931-684-2460 after August 15, 1997. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected after February 1, 1998. Callers experiencing trouble completing calls to the new 931 area code should, (1) ensure that the new code has been added to their privately owned equipment; (2) check with their local service provider to see if the new code has been opened in the originating switch; or (3) call the BellSouth Area code Response line at 1+800-691-2992.

The following dialing procedures will continue for all NPAs in Tennessee:

- All home NPA (HNPA) "local" calls will be dialed on a seven digit basis with no prefix; i.e. NXX + XXXX (seven digits).
- All foreign NPA (FNPA) "local" calls will be dialed on a seven digit basis with no prefix; i.e. NXX + XXXX (seven digits).
- All home NPA (HNPA) direct dialed "toll" calls (generally calls that incur an additional charge) will be dialed with a prefix "1" and ten digits; i.e. 1 + HNPA + NXX + XXXX (1+ ten digits).
- All foreign NPA (FNPA) direct dialed toll calls will be dialed with a prefix "1" and ten digits; i.e. 1 + FNPA + NXX + XXXX (1+ ten digits).
- All operator assisted calls (both HNPA and FNPA) including credit card, collect, and third party calls will be dialed with a "0" prefix and ten digits; i.e. 0 + NPA + NXX + XXXX (0+ ten digits).

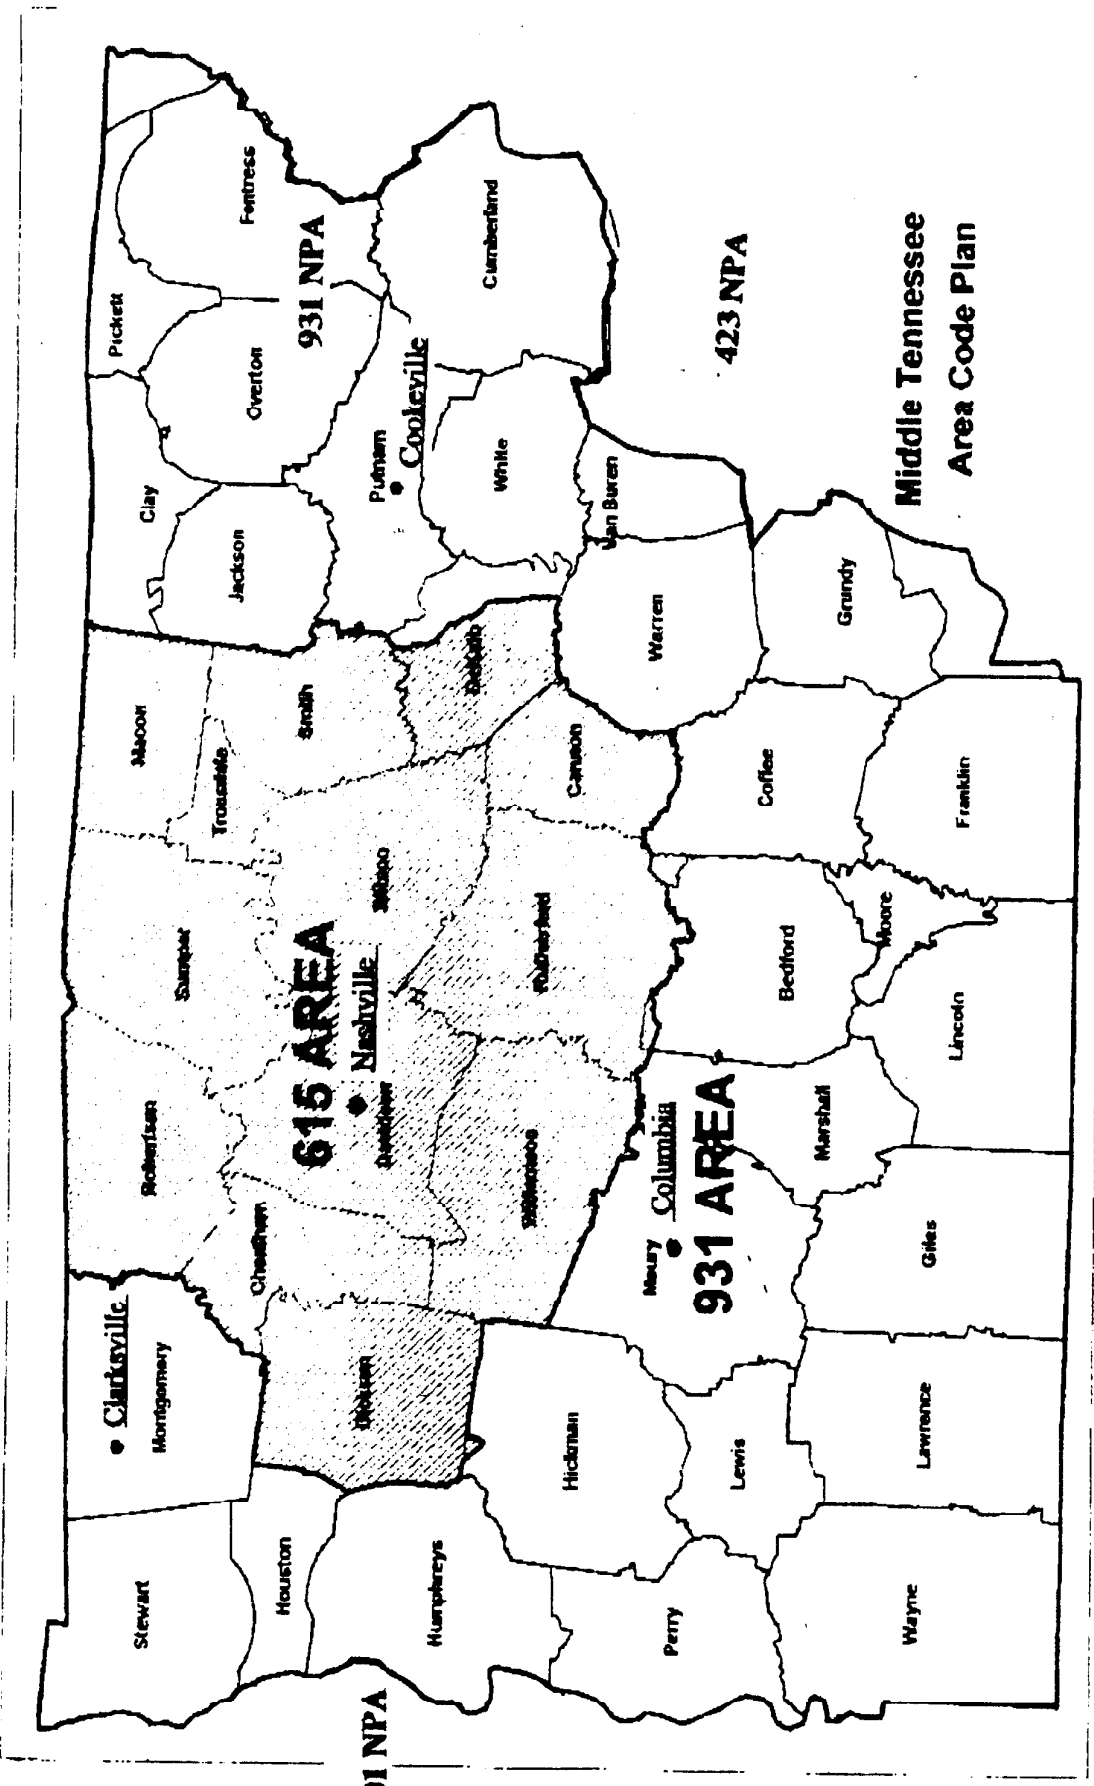

Questions may be directed to either Karen Hawkins, BellSouth Telecommunications, at 615-214-5233, or to the BellSouth NPA Code Administrator, Stan Washer, at 205-977-2668.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 732-699-6612.
