Subject: NANP-Split of 405 (Oklahoma) Numbering Plan Area (NPA)

---

We have been advised by Southwestern Bell Telephone that substantial number growth in western portions of Oklahoma necessitates providing area code relief for the 405 NPA. The relief plan calls for a geographic split of the 405 NPA and the simultaneous introduction of a new 580 NPA. The following is a description of this relief plan.

Oklahoma City and other communities in central Oklahoma including Hennessey, Stillwater, Geary, and Fort Cobb will retain the 405 NPA. The remaining area in the current 405 NPA will transfer to the new 580 NPA.

The split of the 405 NPA, and the beginning of a permissive dialing period, will take place at 12:01 AM Central Standard Time (CST) on Saturday, November 1, 1997. The permissive dialing period will end at 12:01 AM CDT on Wednesday, April 1, 1998. During the permissive dialing period, either the 405 or 580 NPA code will be acceptable in a dialed number terminating in the new 580 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to a recorded announcement and will be blocked.

The attached map illustrates the 405 and 580 NPA configuration after the split. Also attached are listings of the assigned central office codes (NXXs) in the 405 and 580 NPAs, effective August 15, 1997. Since the attached NXX information may change over time, updated information may be found either in the Local Exchange Routing Guide (LERG) or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 580 NPA has been activated throughout their networks prior to November 1, 1997. Test calls to verify routing to the new NPA can be made by dialing 580-762-6266, effective October 20, 1997. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected at the end of the permissive period on April 1, 1998.

The dialing procedures for the 405 and 580 NPAs will be as follows:

- All home NPA (HNPA) local calls will be dialed on a 7-digit basis with no prefix, i.e., NXX-XXXX (7 digits).
- All HNPA toll calls, i.e., calls that generally incur an extra charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA-NXX-XXXX (1 + 10 digits).
- All foreign NPA (FNPA) local calls will be dialed on a 10-digit basis with no prefix, i.e., FNPA-NXX-XXXX (10 digits).

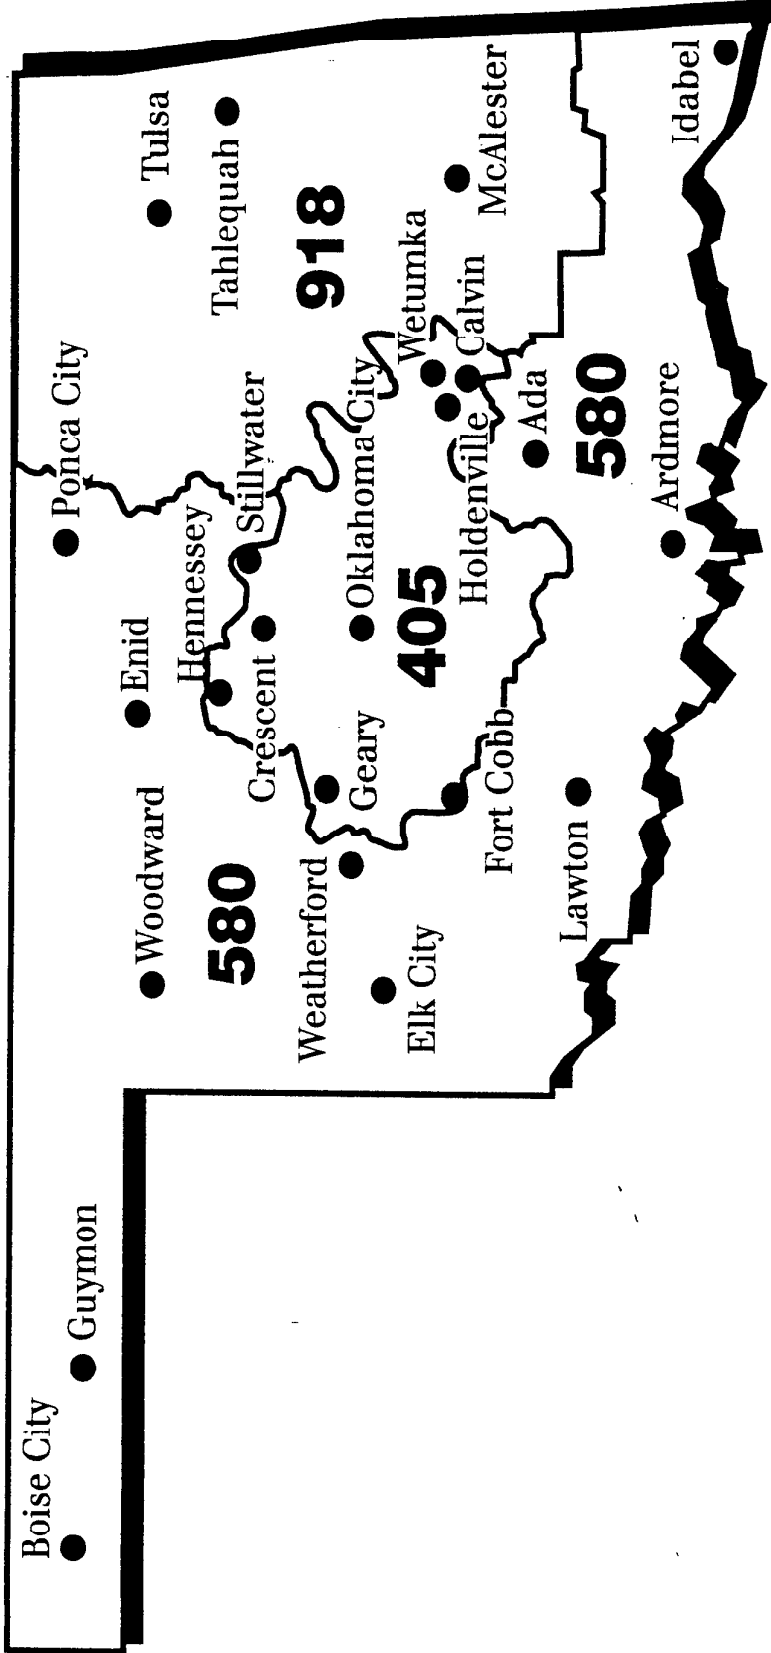

- All FNPA toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA-NXX-XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA-NXX-XXXX (0 + 10 digits).

General questions concerning the 405 and 580 NPA split may be directed to the Bill Adair, Southwestern Bell Telephone, at 913-676-1539.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 732-699-6612.
