

North American Numbering Plan Planning Letter

Number: PL-NANP-105

Date: January 8, 1998

From: R. C. Breidenbaugh - NANP Administration

Subject: NANP-Split of 704 (North Carolina) Numbering Plan Area (NPA)

We have been advised by BellSouth that continued number growth in North Carolina necessitates providing area code relief for the 704 Numbering Plan Area (NPA). The relief plan, approved by the North Carolina Utilities Commission, calls for a geographic split of the 704 NPA and the simultaneous introduction of a new 828 NPA. The following is a description of this relief plan.

Generally the Charlotte LATA will retain the 704 NPA and the Asheville Local Access and Transport Area (LATA) will be assigned to area code 828. The new 828 and 704 NPAs are forecasted to exhaust in six and four years, respectively.

The split of the 704 NPA, and the beginning of a permissive dialing period for the 828 NPA, is scheduled for 12:00 AM Eastern Standard Time (EST) on Sunday, March 22, 1998. The permissive dialing period will end at 12:01 AM EDT on Monday, October 5, 1998. During the permissive dialing period, either the 704 or 828 NPA code will be acceptable in a dialed number terminating in the new 828 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept.

The attached map illustrates the 704 and 828 NPA configuration after the split, showing approximately where the boundary between NPAs will be located. Also attached are listings as of November 1, 1997 of the assigned central office codes (NXXs) and associated exchange names that will be located in the 704 and 828 NPAs. Since NXX information may change over time, updated NXX information may be found either in the Local Exchange Routing Guide (LERG) or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 828 NPA has been activated throughout their networks prior to March 22, 1998. Test calls to verify routing to the new NPA can be made by dialing 828-255-0998, which will be established on or before February 22, 1998. It is not expected the test number can be reached from outside the 704 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected at the end of permissive dialing on October 5, 1998.

The following dialing procedures will continue for all NPAs in North Carolina:

- All home NPA (HNPA) "local" calls will be dialed on a 7-digit basis with no prefix, i.e., NXX + XXXX (7 digits).
- All foreign NPA (FNPA) local calls to existing Extended Area Service (EAS) points will be dialed on a 7-digit basis with no prefix; i.e., NXX + XXXX (7 digits).

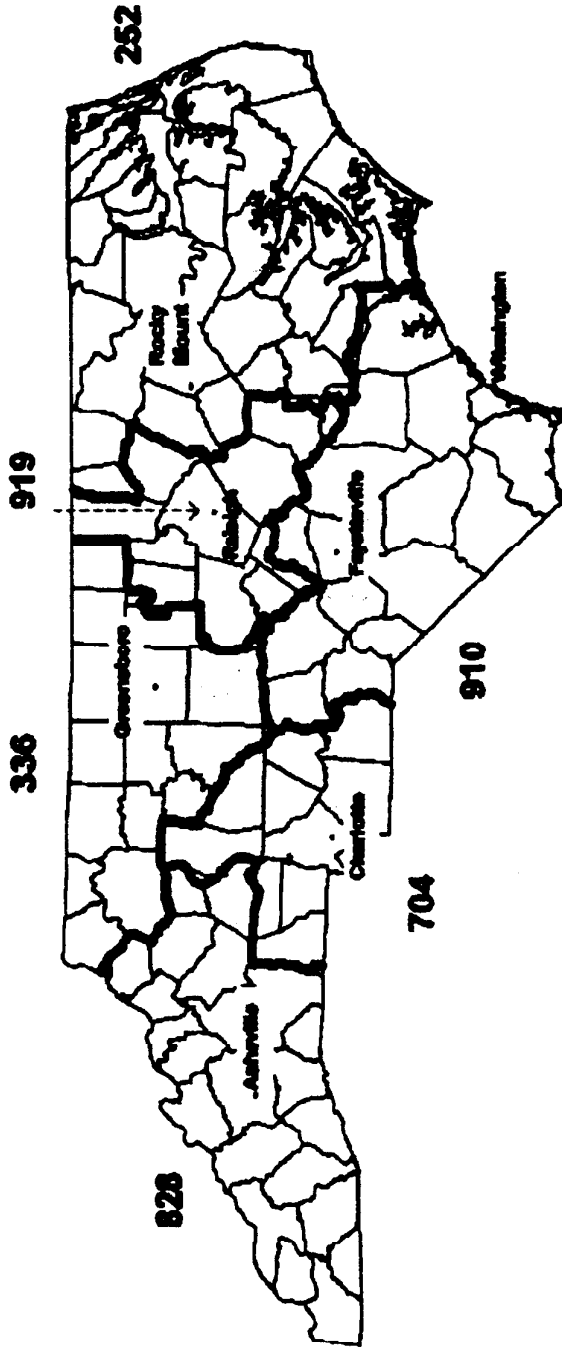

- All FNPA local calls to new Expanded Local Calling Area (ELCA) points will be dialed with 10 digits; i.e., FNPA + NXX + XXXX (10 digits).
- All HNPA direct dialed "toll" calls, i.e., calls that incur an additional charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).
- All FNPA direct dialed toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

Questions concerning the 704/828 split and dialing procedures may be directed to BellSouth NPA Relief Coordinators, Bill Farris on 704-417-7949 or Clyde Nestor on 336-723-2468.

Questions concerning the contents of this letter may be referred to Rose Breidenbaugh, at Bellcore, on 732-699-3054.

North Carolina area codes

Under a plan approved by the N.C. Utilities Commission on Aug. 20, 1997, the state's three area codes will be divided to create three new area codes. These codes will provide future telephone numbers as the demand for communications services continues to grow.

828, a new area code, will be assigned to the following exchanges of the Asheville and Charlotte LATAs to replace 704. It will be implemented beginning March 22, 1998. If an area code is required for completing a call to a number in the exchanges, such as a long distance call, 828 must be used after October 5, 1998.
