

## North American Numbering Plan Planning Letter

Number: PL-NANP-111

Date: February 12, 1998

From: Rose Breidenbaugh - NANP Administration  
202-756-5779; e-mail: rose.breidenbaugh@nanpa.com

Subject: NANP-Split of 805 (California) Numbering Plan Area (NPA)

---

We have been advised by California-Nevada Code Administration (CNCA) that substantial number growth in northern California necessitates providing area code relief for the 805 NPA. The relief plan, approved by the California Public Utilities Commission (CPUC) in Decision, 97-11-080 calls for a geographic split of the 805 NPA and the simultaneous introduction of a new 661 NPA. The following is a description of this relief plan.

The eastern portion of the existing 805 NPA will transfer to the new 661 NPA. This area is bounded by the 760 NPA to the east, by the 805 NPA to the south, by part of the 408 NPA to the west, and by the remainder of the 805 NPA to the north. A listing of cities and towns served by each NPA is attached.

The split of the 805 NPA, and the beginning of a permissive dialing period, will take place at 2:00 AM Pacific Standard Time (PST) on Saturday, February 13, 1999. The permissive dialing period will end at 2:00 AM PDT on Saturday, August 14, 1999. During the permissive dialing period, either the 805 or the 661 NPA code will be acceptable in a dialed number terminating in the new 661 NPA. After the permissive period, all calls dialed with an incorrect NPA code, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept.

The attached **maps** illustrate the 805 and 661 NPA configurations after the split. Also attached are four listings of the assigned **NXXs** and Rate Centers that will be associated with the 805 and 661 NPAs. These lists reflect assignments published in the LERG as of December 1, 1997 and are sorted two ways for each NPA: numerically by NXX and alphabetically by Rate Center name. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 732-699-6700.

All international and domestic carriers are asked to ensure that the new 661 NPA code has been activated throughout their networks prior to February 13, 1999. Test calls to verify routing to the new NPA code can be made by dialing 661-820-0661, effective January 11, 1999. It is not expected the test number can be reached from outside the 805 NPA until shortly before the beginning of permissive dialing. Calls

successfully completed to the test number will receive a recorded announcement. The test number will be disconnected September 15, 1999.

The dialing plan for the 805 and 661 NPAs will remain the same, namely:

- All home NPA (HNPA) local calls and toll calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits), as desired.
- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

The CNCA has indicated the 805 NPA remains in a jeopardy situation, as described in Bellcore Planning Letter, PL-NANP-054, which was invoked in accordance with the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0470-008). Because of increased demand for central office codes and the possibility of premature exhaust, the CNCA has applied *special and extraordinary NPA-specific* conservation measures per Section 8 of the guidelines on April 24, 1997 as described in the above Planning Letter.

General questions concerning the split of the 805 NPA, and related code conservation measures, may be directed to the CNCA at 510-823-2880. Questions of a technical nature should be directed to the NPA project coordinator, Pacific Bell, at 916-972-2751.

Questions concerning the contents of this letter may be referred to Rose Breidenbaugh, at 202-756-5779.

Rose Breidenbaugh  
North American Numbering Plan Administration

After the split, the following NXXs will be in: CD-ROM dated  
December 1, 1997
