

NORTH AMERICAN NUMBERING PLAN PLANNING LETTER

Number: PL-NANP-120
Date: April 21, 1998
From: R. C. Breidenbaugh - NANP Administration
202 756-5779; E-mail : rose.breidenbaugh@nanpa.com
Subject: NANP Split of 612 (Minnesota) Numbering Plan Area (NPA)

We have been advised by US WEST that substantial number growth in Minnesota necessitates providing relief for the 612 NPA. The purpose of this letter is to provide input for Industry Notification of the 612 Area Code Relief in the State of Minnesota. The 612 NPA currently serves customers in the Minneapolis/St. Paul metropolitan area. The new 651 NPA will be introduced via the area code split method in the eastern portion of the existing 612 NPA, and will include the City of St. Paul and its suburbs. A six month permissive dialing period will begin on July 12, 1998 and end for most locations on January 10, 1999.

The defined area code boundary (which is based on municipal boundaries rather than exchange, rate center, or wire center boundaries) will divide certain exchanges and wire centers between the two area codes. Customers in these specific wire centers who are located to the west of the boundary will have their telephone numbers remain in the 612 NPA, while those to the east will retain their seven-digit numbers (in the same NXX's as those to the west) but will be transferred to the 651 NPA. As a result, certain NXX's will be duplicated in both NPA's during and immediately after the permissive dialing period. For calls to these NXX's, permissive dialing will end on February 28, 1999. Carriers should treat these entire NXX's as totally permissive (i.e. either 612 or 651) during the permissive dialing period, both locally and nationwide. Although the NXX's will be duplicated, individual telephone numbers will not be duplicated until after the end of permissive dialing.

Additionally, twenty NXX codes will have extended local permissive dialing until July 1, 1999 to provide additional time for burglar and fire alarm companies to complete necessary transition work. Extended permissive dialing to these NXX's from outside of the local calling area will not be required.

A list of NXX's which will be transferring to the new 651 NPA is attached. The list also identifies those NXX's in divided wire centers which will be duplicated and which have extended nationwide permissive dialing. Also attached is a map of the existing 612 NPA which illustrates the new area code boundary.

A summary of the Dialing Plan which will be in place at the end of the permissive dialing period is provided here:

Table with 3 columns: Within an NPA, Between 612/651 NPA's, 612/651 to/from other NPA's(2). Rows: Local (non-toll) calls, Toll (long-distance).

All Oper. Assisted <-----0+NPA-NXX-XXXX----->

NOTES:

1. 10-digit local dialing within an NPA will be permissive.
2. Cross-NPA boundary local calling to/from the 320, 507, and 715 NPA's will remain 7-digit.
See attachment for list of cross-boundary locations.
3. Permissive use of 1+NPA-NXX-XXXX for local calls has been approved by the Minnesota PUC.

A 651 NPA test number has assigned to be available as of June 1, 1998. The Test Number will be 651-296 - 2644.

The Jeopardy status was declared in October, 1997 and a Central Office Code Allocation Plan was implemented in December. A lottery process which allocates five or six (alternating) office code assignments per month will ensure that code assignments will continue until relief becomes available.

Questions concerning the area code relief or the Jeopardy situation may be directed to Jack Ott, Area Code Relief Planner, at 303-707-7005.

Questions concerning the contents of this letter may be directed to Rose Breidenbaugh at 202-756-5779.
