

NORTH AMERICAN NUMBERING PLAN PLANNING LETTER

Number: PL-NANP-164

Date: February 23, 1999

From: R.C. Breidenbaugh –NANP Administration
202-756-5779, rose.breidenbaugh@nanpa.com

Subject: Update of Jeopardy Procedures for Numbering Plan Area (NPA) 314 in Missouri; this notice updates PL-NANP-147

Southwestern Bell advises NANPA that the jeopardy procedures have changed for the 314 Numbering Plan Area (NPA) in Missouri. These changes reflect that the relief date has changed to March 25, 2000, and the new Code Administrator fax number to accommodate the transition to Lockheed Martin IMS. The page that follows changes Items 4, 8 and 11 to reflect this update.

Questions concerning the contents of this letter may be directed to Rose C. Breidenbaugh on 202-756-5779.

R. C. Breidenbaugh
North American Numbering Plan Administration

314 JEOPARDY PLAN

FINAL

EFFECTIVE 12-1-98

REVISED EFFECTIVE 02-01-99

1. The Industry Jeopardy plan for the 314 NPA begins on December 1, 1998.
2. No CO Codes may be reserved for the duration of this Jeopardy Plan.
3. A total of 119 CO codes are available for assignment under this plan.
4. The NPA relief date for this Jeopardy plan will be 03/25/2000. **This revision is being made as a result of Industry consensus on a specific implementation date.**
5. All code applications will be handled on a first come/first served basis.
6. Code assignments under this plan will begin on Tuesday, December 1, 1998. Subsequent months for this plan will begin on the ***FIRST TUESDAY*** of each month—12/1, 1/5,2/2,3/2.4/6, etc.
7. All applications will be faxed pursuant to #8 below and date and time stamped. For the purposes of this plan, a day begins at 8:00 am Central Time. The clock to be used for this plan will be the clock associated with the Code Administrator's fax machine.
8. All code applicants should continue their existing procedures for transmitting code requests to the Code Administrator. However, for the purposes of the 314 Jeopardy plan, the provider shall fax a single page request specifying the number of codes requested in that month's allocation. The CO Code Request to support this request must be received by the Code Administrator within 7 calendar days. **The fax number is 925-363-8734.**
9. No expedite NXX assignments will be allowed during the Jeopardy plan.
10. Any request for a new code received after 01/31/2000 will be assigned a code from the NPA's, as they will be configured after 314 NPA relief has been completed.
11. Eight (8) NXX's per month may be assigned by the Code Administrator. The total codes assigned in a month will be at least 8 per month. The total per month could increase if additional codes are retrieved or if the full allocation of 8 codes in a previous month is not assigned. If the full allocation of codes is not assigned, the code administrator will accumulate these codes until a quantity is available that would result in the monthly allocation being increased by at least 1 code. Once that number of codes is available, the CA will increase the monthly allocation to the increased total.
12. If a code applicant requests their first code within the 314 NPA, and they comply with the requirements to be a code holder as described in the CO Code Assignment Guidelines, this initial code will be assigned immediately upon processing by the code administrator. Such assignments will be subtracted from the month's allocation.

13. NXX's will be assigned initially on a 1/applicant basis, regardless of the number of requests received from that applicant. If 8 applicants submit requests for codes in a month, each applicant will be assigned 1 code. All additional applications will be denied for that month.
14. If fewer than 8 applicants request codes in a month, but the total number of codes requested exceeds 8 codes, the requests will be processed by assigning one code to each applicant in sequential order based on the date/time stamp.
15. Codes from the month's allocation will be made on the second to the last business day of the month. This will allow the code holder to input the required information relative to the code in the next month's LERG. Once all codes available in a month have been assigned, all remaining code requests will be canceled and the applications will be returned to the code applicant.
16. If more than 4 applicants are denied the assignment of a single code in two consecutive months, the number administrator will re-convene the industry group to review the allocation plan.
17. Each month, the procedure described above will be used.
18. Any dispute over the implementations of this jeopardy plan will be resolved with the involvement of the Code Administrator, the Industry Team and/or the Missouri Commission staff.
19. The Missouri Public Commission staff has reviewed this plan.
