According to the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0407-008, revision September 18, 1998), “ A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief.” The Purpose of this announcement is to provide the extraordinary NPA-specific conservation measures as defined in Section 9.5 of the *Central Office Code (NXX) Assignment Guidelines* which have become necessary for the **810** NPA.

All remaining codes in the **810** NPA will be rationed through the **Extraordinary Jeopardy Procedures as approved by the Industry until relief is provided in accordance with the respective NPA relief plan.** The attached document, **810 NPA Extraordinary Jeopardy Procedures**, describes the lottery process.
