

## **NORTH AMERICAN NUMBERING PLAN PLANNING LETTER**

Number: PL-NANP-183

Date: July 22, 1999

From: R.C. Breidenbaugh –NANP Administration  
202-756-5779, rose.breidenbaugh@nanpa.com

Subject: Geographic Split of 423 (Tennessee) Numbering Plan Area (NPA); addition of 865 NPA

---

As a result of substantial number growth in Tennessee, the 423 NPA is nearing exhaust. The relief plan, approved by the Tennessee Regulatory Authority, calls for a geographic split of the 423 NPA and the simultaneous introduction of a new NPA, 865. The 423 NPA will continue to serve customers in the southwestern and northeastern portion of the existing 423 NPA. The 865 NPA will serve the central portion of the existing 423 NPA, as shown on the attached map. After the split, exhaust of the 423 and 865 NPAs is expected to occur in approximately 11 and 7 years, respectively, based on current demand projections. A listing of communities associated with 423 and 865 NPAs is attached.

Also attached are lists of current 423 NPA central office codes (NXXs) that will remain in the 423 NPA and that will move to the 865 NPA. The lists are correct as of June 1, 1999. Since NXX information may change over time, consult either the *Local Exchange Routing Guide* (LERG) or the *NPA NXX Activity Guide* (NNAG) for updated information. The LERG and NNAG are available from Telcordia's Traffic Routing Administration, 732-699-6700.

The split of the 423 NPA will occur at 12:01 a.m. Eastern Daylight Time on Monday, November 1, 1999. A five-month permissive dialing period will begin simultaneously with the split and end at 12:01 a.m. Eastern Standard Time on Monday, April 24, 2000. During the permissive dialing period either the 423 or the 865 NPA code will be acceptable in a dialed number terminating in the 865 NPA. Automatic Number Identification (ANI) Conversion will take place during the permissive dialing period on an office by office basis. It is essential that all service providers comply with the permissive dialing patterns as indicated in the LERG. This action will be necessary throughout the permissive dialing period to prevent call failures and customer dissatisfaction. After the permissive period, all calls dialed with the incorrect NPA code will be routed to an informational announcement.

BellSouth's process for updating Operations Support System (OSS) for the Tennessee 423 NPA Split will vary from that used in the majority of previous NPA splits. In most past NPA splits, BellSouth converted its internal OSSs coincident with the beginning of permissive dialing.

(These systems support functions that include billing, service order, repair, operator services, directory listings and others.) For the Tennessee 423 split the OSS conversion will occur 15 weeks after permissive dialing has already commenced. Permissive dialing will begin on November 1, 1999, whereas BellSouth's OSSs will be converted during the weekend of February 11-13, 2000.

During the interval between the permissive dialing start date and the OSS conversion date, BellSouth interfaces to other entities will continue to accept the old NPA. In addition, BellSouth data furnished to other carriers over those interfaces will continue to carry the old NPA during the interval. These interfaces will begin to accept and furnish the new NPA immediately after the OSS conversion.

From an end user perspective, most impacts from this variance will fall in the area of 'customer-to-machine' interface mismatches. Customers who start to use the new NPA with services requiring a telephone number input would get a 'number not found' type response during the 15 weeks. However, these services would continue to work as normal with input of the old NPA until after the OSS conversion.

After the beginning of mandatory dialing on April 22, 2000, the dialing plan for the 423 and 865 NPAs is as follows:

<b>Type of Call</b>	<b>Home NPA</b>	<b>Foreign NPA</b>
<b>Local and EAS</b>		
<b>Present</b>	<b>7 digits</b>	<b>10 digits</b>
<b>Recommended</b>	<b>7digits</b>	<b>10 digits</b>
<b>Allowable</b>	<b>None</b>	<b>None</b>
<b>LEC option</b>	<b>1+10 digits</b>	<b>7/10 digits</b>

All international and domestic carriers should ensure that the new 865 NPA can be translated throughout their networks no later than February 20, 2000. BellSouth volunteered to provide the number 865-594-0494 and 865-670-1632 for test purposes. From November 1, 1999, until April 24, 2000, test calls to verify routing to the 863 NPA can be made by dialing 865-594-0494 and 865-670-1632. A recorded announcement will indicate successful completion of the call.

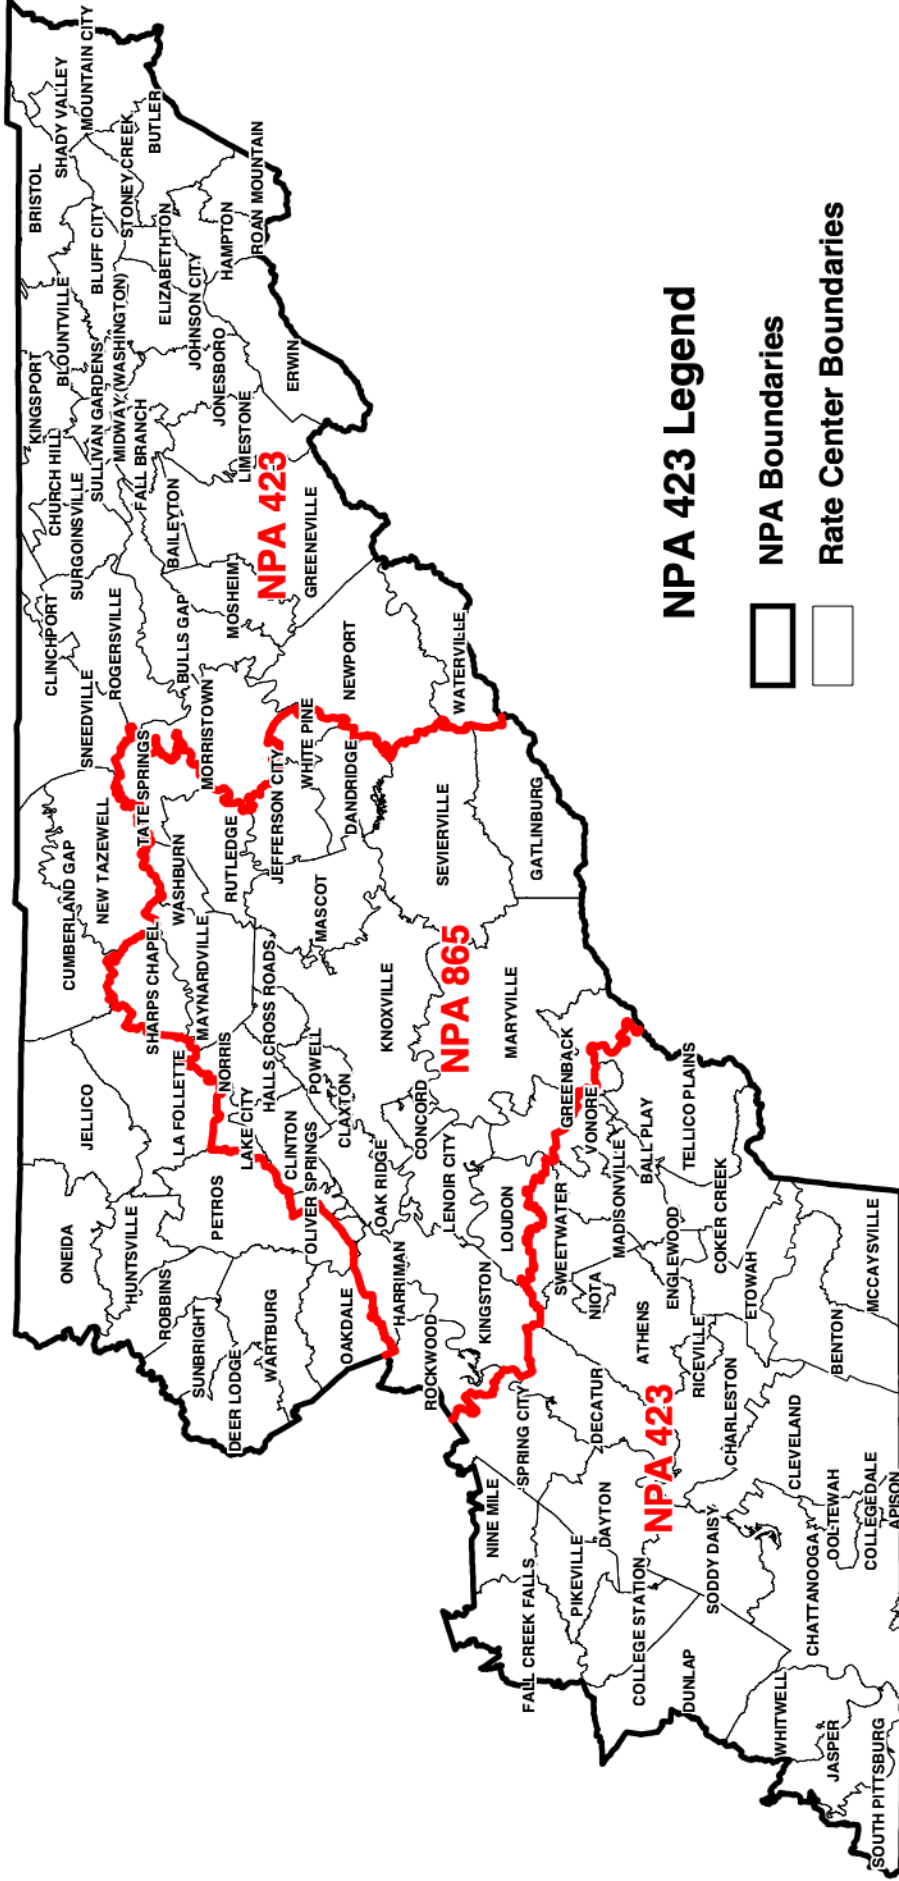

Questions concerning the relief of the 423 NPA should be directed to Sandy Tokarek, Senior Relief Planner on 412-431-4091, or Ben Childers, on 573-442-7721.

Questions concerning the contents of this letter may be referred to Rose Breidenbaugh, on 202 756-5779.
