

Number: PL-205  
Date: December 29, 1999  
From: North American Numbering Plan Administration (NANPA)  
Subject: 606 NPA Split, Creating 859 NPA – Kentucky

---

The Kentucky Public Service Commission, in a decision dated August 4, 1999, approved a geographic split of the 606 NPA. North American Numbering Plan Administration (NANPA) has assigned the 859 NPA code for this purpose.

The new 859 NPA will encompass the north-western section of the current 606 NPA, including Richmond, Danville, Covington and Mount Sterling. A detailed list of cities moving to the 859 NPA and remaining in the 606 NPA is attached to this planning letter.

The split of the 606 NPA, and the beginning of a permissive dialing period, will take place at 12:01 AM Central Time on April 1, 2000. The permissive dialing period will end at 12:01 AM Central Time on October 1, 2000. During the permissive dialing period, either the 606 or the 859 NPA code will be acceptable in a dialed number terminating in the new 859 NPA. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. Please note that an extended permissive period applies to wireless carriers' NXXs identified in the attached NXX list. The extended permissive period ends on April 4, 2001.

The attached map illustrates the 606 and 859 NPA configuration after the split is completed. Also attached are listings of the assigned central office codes (NXXs) and Rate Areas that will be associated with the 606 and 859 NPAs. These lists reflect assignments published in the LERG as of December, 1999. Since NXX information may change over time, check either in the LERG or the NPA NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA hotline at 908-699-6700.

All international and domestic carriers should ensure that the new 859 NPA code has been activated throughout their networks prior to October 1, 2000. Test calls to verify routing to the new NPA code can be made by dialing 859-737-2859 or 859-431-9216. Calls successfully completed to the test number will receive a recorded announcement.

After the split, the dialing plans for the 606 and 859 NPAs will be the same as the current dialing plan for the 606 NPA, namely:

- All home NPA local calls must be dialed as 7-digits (NXX + XXXX).
- All local calls terminating outside the home NPA may be dialed either as 10 digits (NPA + NXX + XXXX), or with a prefix "1" and 10 digits (NPA + NXX + XXXX). except where

Local Exchange Carriers were ordered to provide seven-digit dialing across area code boundaries within Kentucky.

- All toll calls must be dialed with the prefix “1” and 10 digits (1 + NPA + NXX + XXXX)
- All operator assisted calls, including credit card, collect, and third party calls, must be dialed with the prefix “0” and 10 digits (0 + NPA + NXX + XXXX).

The latest ANI Conversion Schedule for BellSouth switches will be maintained on the BellSouth Interconnection Service web site at

[www.interconnection.bellsouth.com/notices/index\\_notices.html/bellsouth](http://www.interconnection.bellsouth.com/notices/index_notices.html/bellsouth).

The Bell South OSS conversion date for the 606/859 geographic split is June 16-18, 2000.

General questions concerning the geographic split may be directed to Sandy Tokarek, NANPA – NPA Relief Planning – Central Region at 401-821-7761. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider.
