

Number: PL-211  
Date: February 9, 2000  
From: North American Numbering Plan Administration (NANPA)  
Subject: 914 NPA Split, Creating 845 NPA (New York)

---

On November 4, 1999, the New York State Department of Public Service approved a plan calling for a geographic split of the 914 NPA and the introduction of a new NPA, 845. The 914 NPA will continue to serve customers in Westchester County, and the new 845 NPA will serve customers in Rockland, Putnam, Orange, Ulster counties, as well as in parts of Delaware, Greene, Columbia, Dutchess and Sullivan counties. The attached map delineates the NPA boundaries after the split.

Also attached are lists of current 914 NPA central office codes (NXXs) that will remain in the 914 NPA and those that will move to the new 845 NPA. The lists are accurate as of February 7, 2000. Since NXX information may change over time, service providers are advised to consult either the *Local Exchange Routing Guide (LERG)* or the *NPA NXX Activity Guide (NNAG)* for updated information. The LERG and the NNAG can be obtained from Telcordia Technologies, Traffic Routing Administration (732 699-6700).

The split of the 914 NPA will occur at 12:01 AM, Eastern Daylight Time on Monday, June 5, 2000. That time and date also mark the beginning of a six-month permissive dialing period that will end at 12:01 A.M. Eastern Standard Time on Monday, December 4, 2000. During the permissive dialing period either the 914 or the 845 NPA code will be acceptable in a dialed number terminating in the 845 NPA. Automatic Number Identification (ANI) conversion will take place during the permissive dialing period on an office-by-office basis. It is essential that all service providers comply with the permissive dialing patterns to prevent call failures and customer dissatisfaction. After the permissive period, all calls dialed with the incorrect NPA code will be routed to an informational announcement. Activation of NXX codes in the new area code will begin on February 23, 2001.

The geographic split boundary ordered by the New York State Department of Public Service runs along the county boundary dividing Westchester County from Putnam and Rockland counties. Because this line does not follow traditional rate center boundaries, six rate centers (Peekskill, Lakeland, Mahopac, Croton Falls, Purdys and North Salem) will be divided. Consequently, assigned 914 NXX codes serving these rate centers will be duplicated in the new 845 NPA. The duplicated NXX codes will be assigned to those same service providers holding the corresponding assignments in 914. This information has been forwarded to Telcordia's Traffic Routing Administration for input to the LERG.

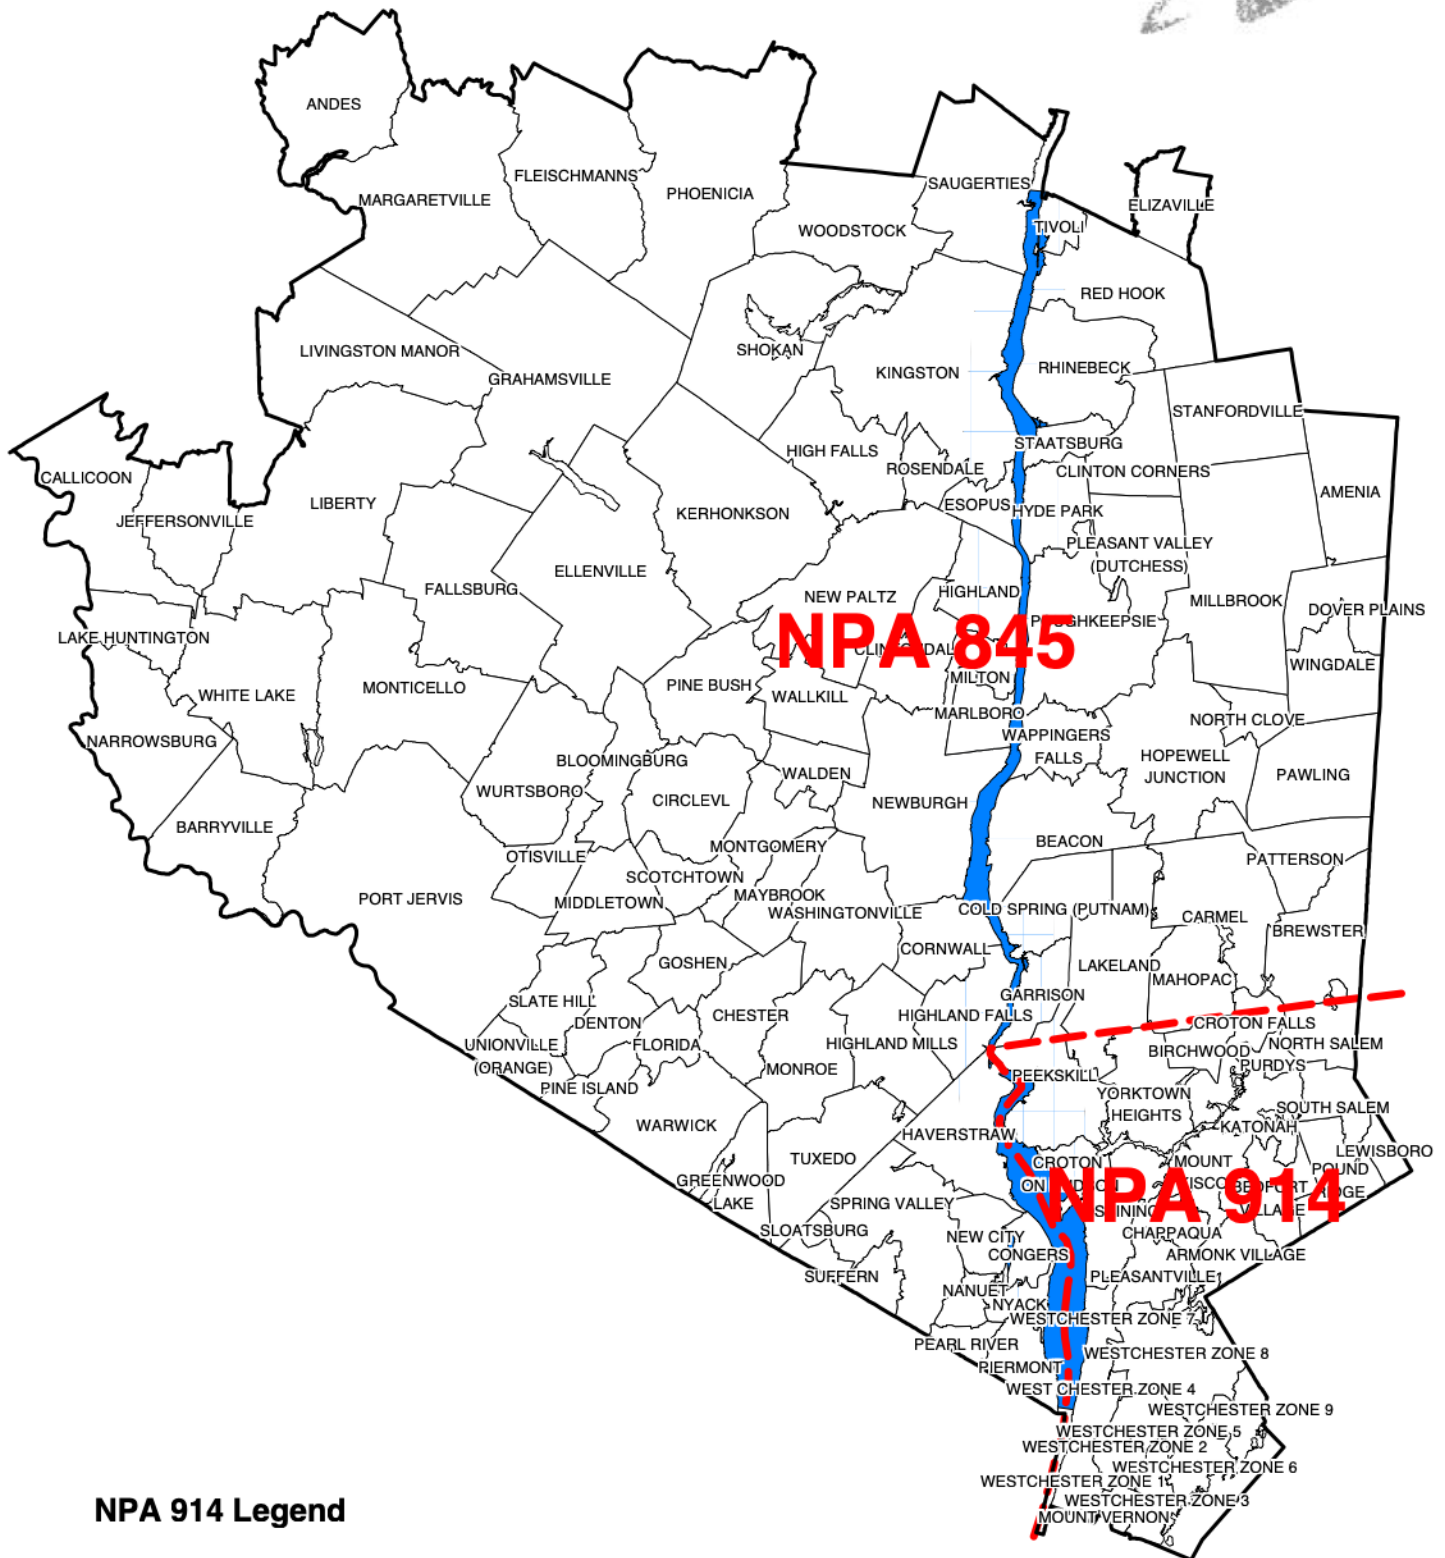

After the beginning of mandatory dialing on December 4, 2000, the dialing plan for the 914 and 845 NPAs will be as follows:

- All calls terminating in the home NPA may be dialed either with 7-digits (NXX + XXXX), or with a prefix “1” and 10 digits (1+ NPA + NXX + XXXX).
- All calls terminating in a foreign NPA, including calls between the 914 and 845 NPAs, must be dialed with a prefix “1” and 10 digits (1 + NPA + NXX + XXXX).
- All operator-assisted calls, including credit card, collect, and third-party calls, must be dialed with a “0” prefix and 10 digits (0 + NPA + NXX + XXXX).

All international and domestic carriers should ensure that the new 845 NPA can be translated throughout their networks no later than June 5, 2000. Bell Atlantic will provide a test number, 845-808-8378, to verify routing to the new NPA. The test number will be in service from May 5, 2000, until March 23, 2001. A recorded announcement will indicate successful completion of the call.

General questions concerning relief of the 914 NPA may be directed to Frank Colaco, NeuStar – NPA Relief Planning – Eastern Region, on 973 740-9100. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider.
