

Number: PL-245
Date: October 26, 2000
From: North American Numbering Plan Administration (NANPA)
Subject: 316 Numbering Plan Area (NPA) Split, Creating 620 NPA (Kansas)

On September 5, 2000, the Kansas Corporation Commission (KCC) approved a relief plan calling for a geographic split of the 316 NPA, which currently serves southern Kansas and the greater Wichita metropolitan area.

The new 620 NPA will include most of the existing 316 NPA, except for the Wichita metropolitan local calling area. In particular, the communities of Wichita, El Dorado, Newton, Augusta, Mulvane, Cheney, Mount Hope and Halstead will retain the 316 NPA. 25 rate areas will remain in the 316 NPA: Wichita, Wichita Parkview, Wichita Jackson, Andover, Derby, Kechi, Valley Center, Augusta, Benton, Colwich-Bentley, Goddard, Mulvane, Rose Hill, Sedgwick, Whitewater, Andale, Cheney, Douglass, El Dorado, Garden Plain, Halstead, Leon, Mt. Hope, Newton and Towanda. Rate areas not named in the previous list will move to the 620 NPA.

The split of the 316 NPA, and the beginning of a permissive dialing period, will take place at 12:00 AM Central Time on February 3, 2001. The permissive dialing period will end at 12:00 AM Central Time on November 3, 2001. During the permissive dialing period, either the 316 or the 620 NPA code will be acceptable in a dialed number terminating in the new 620 NPA. After the permissive period, all calls dialed with incorrect NPA codes, as defined in the NPA split information published in the Local Exchange Routing Guide (LERG), will be routed to intercept. This intercept recorded announcement will be available at least until 12:00 AM Central Time on January 5, 2002.

The attached map illustrates the 316 and 620 NPA configuration after the split is completed. Also attached are listings of the assigned central office codes (NXXs) and rate areas associated with the 316 and 620 NPAs. These lists reflect assignments published in the LERG as of October 1, 2000. Since the attached NXX information may change over time, updated information may be found either in the LERG or the NPA NXX Activity Guide (NNAG). The LERG is available by license contract from Telcordia's Traffic Routing Administration (TRA), 732-699-6700. The NNAG may be downloaded free of charge from the TRA web site, www.trainfo.com.

All international and domestic carriers are asked to ensure that the new 620 NPA code has been activated throughout their networks prior to January 3, 2001.

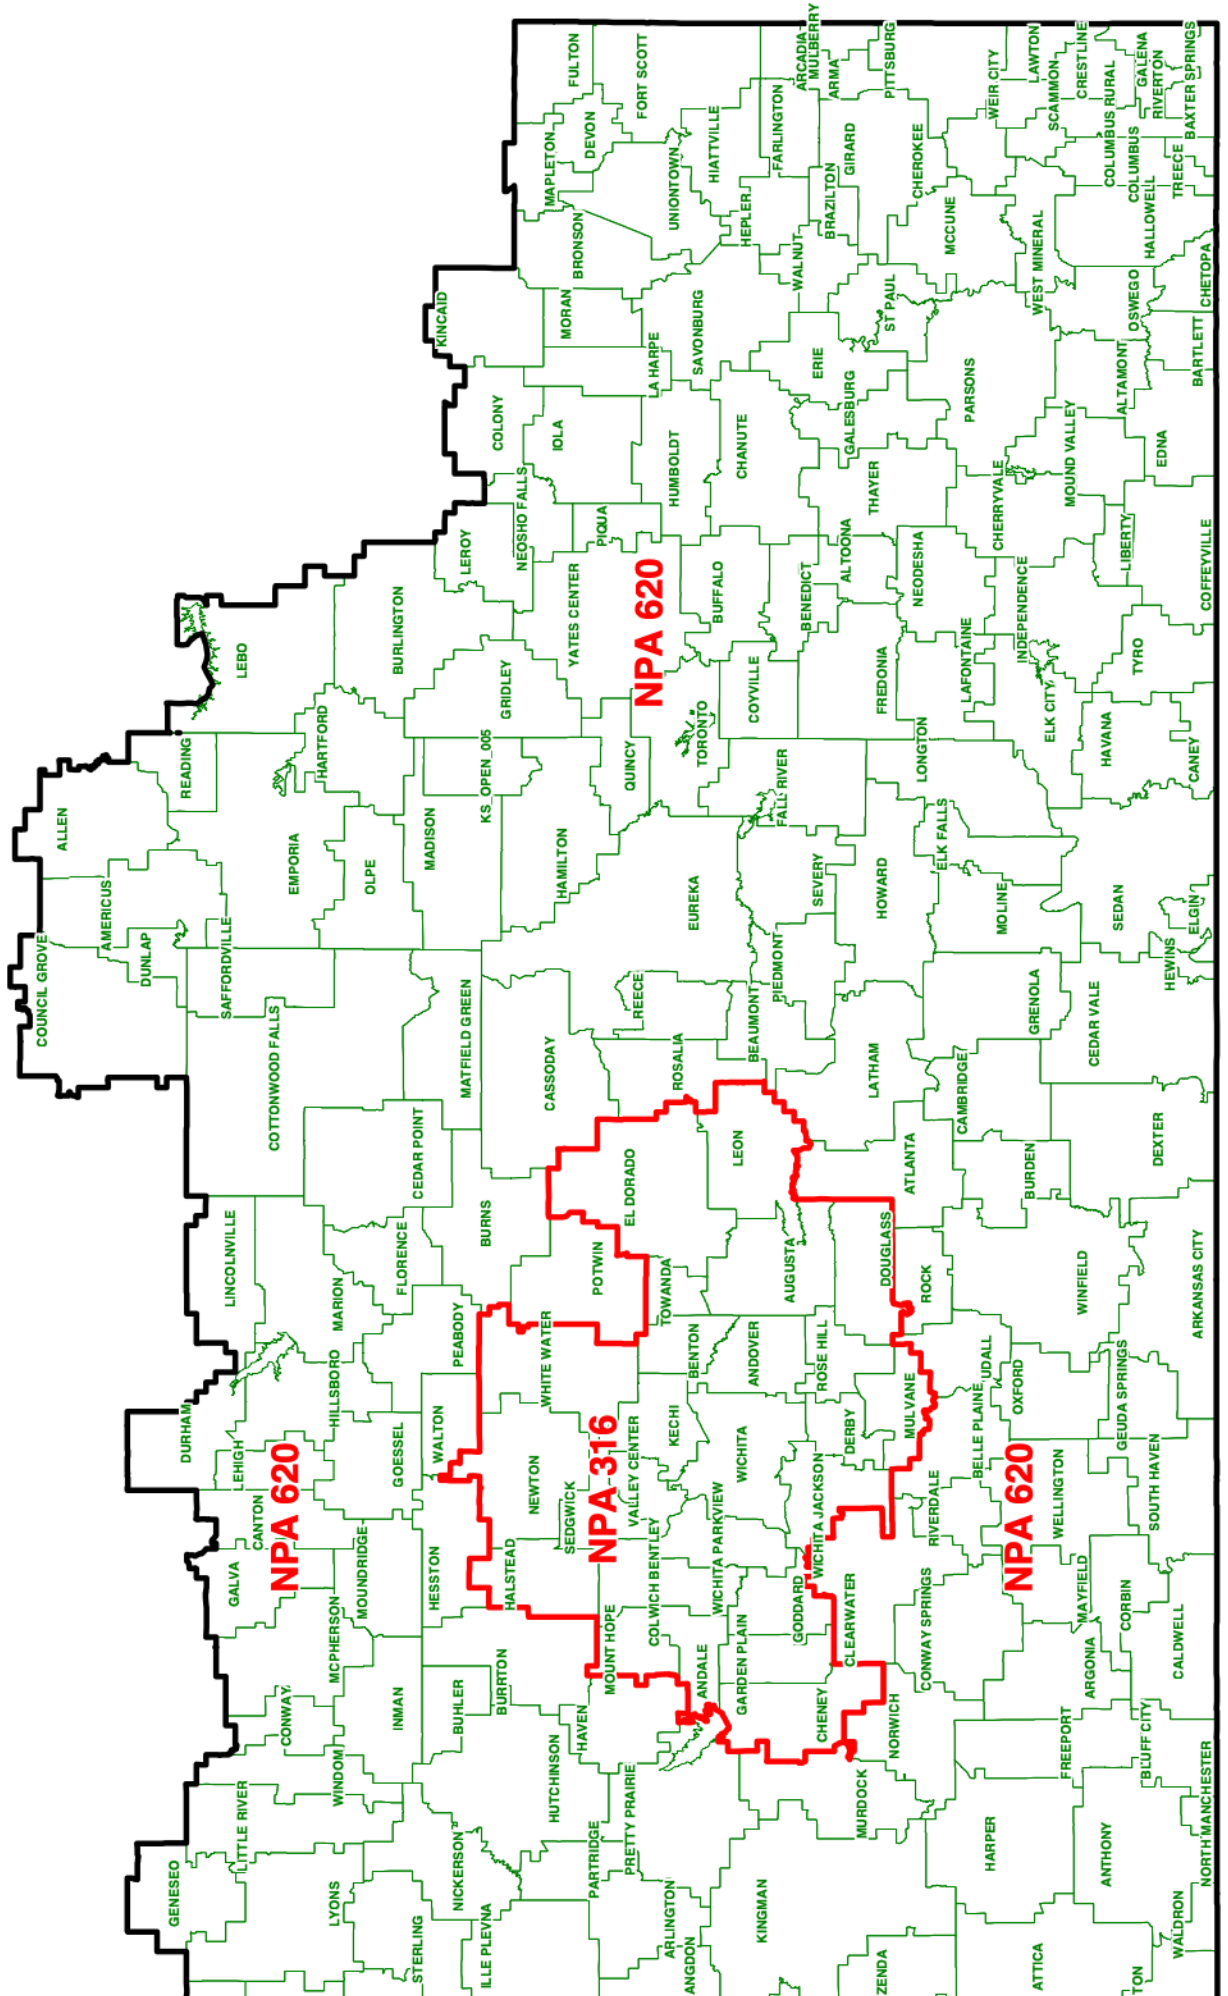

A test number, 620-954-1111, may be used to verify routing to the new NPA. The test number will be in service on January 3, 2001, and will be disconnected no earlier than March 5, 2002. Calls successfully completed to the test number will receive a recorded announcement.

The dialing plan for the 620 NPA will be the same as that used today in the 316 NPA .

- All home NPA local calls may be dialed as 7 digits (NXX-XXXX).
- All foreign NPA local calls will be dialed as 10 digits (NPA+NXX+XXXX).
- All direct dialed toll calls, i.e., calls that generally incur an extra charge, must be dialed with prefix "1" and 10 digits (1+NPA + NXX + XXXX).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with prefix "0" and 10 digits (0+NPA+NXX+XXXX).

General questions concerning the geographic split may be directed to Joe Cocke, NeuStar, Inc.– NPA Relief Planning – Western Region at 805-520-1945. Questions of a technical nature should be directed to the NPA project coordinator of each respective service provider:
