

Number: PL-252  
Date: December 29, 2000  
From: North American Numbering Plan Administration (NANPA)  
Subject: 904 NPA Split, Creating 386 NPA (Northeast Florida)

---

On October 20, 2000, the Florida Public Service Commission ordered a two-way geographic split as the relief method for the 904 NPA. The 904 NPA serves Northeast Florida. The relief plan calls for the 904 NPA to be retained by all or most of Nassau, Duval, Baker, Bradford, Clay and St. Johns Counties while introducing a new NPA, 386, for the remainder of the current 904 NPA area. The attached map identifies the NPA boundaries after the split.

Also attached is a listing of the current 904 NPA central office (NXX) codes, rate centers, and Common Language Location Identifier (CLLI) that will remain in the 904 NPA and those that will move to the new 386 NPA. This information is current as of December 29, 2000. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Technologies, Traffic Routing Administration (TRA), at 732- 699-6700.

The split of the 904 NPA, and the beginning of the permissive dialing period, will take place at 2:00 AM Eastern Time on February 15, 2001. The permissive period will end at 2:00 AM Eastern Time on November 5, 2001. During the permissive period, either the 904 or 386 NPA code will be acceptable in a dialed number terminating in the new 386 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept.

After the beginning of mandatory dialing on November 5, 2001, the dialing plan for the 904 and 386 NPAs will be as follows:

- All local calls terminating in the home NPA will be dialed as 7-digits (NXX+XXXX)
- All local calls, including interstate, terminating in a foreign NPA will be dialed as 10-digits (NPA+NXX+XXXX) without a prefix.
- All toll calls will require the prefix "1" and ten digits (1+NPA+NXX+ XXXX).
- All operator-assisted calls, including credit card, collect, and third party calls, will require the prefix "0" and 10 digits (0+NPA+NXX+XXXX).

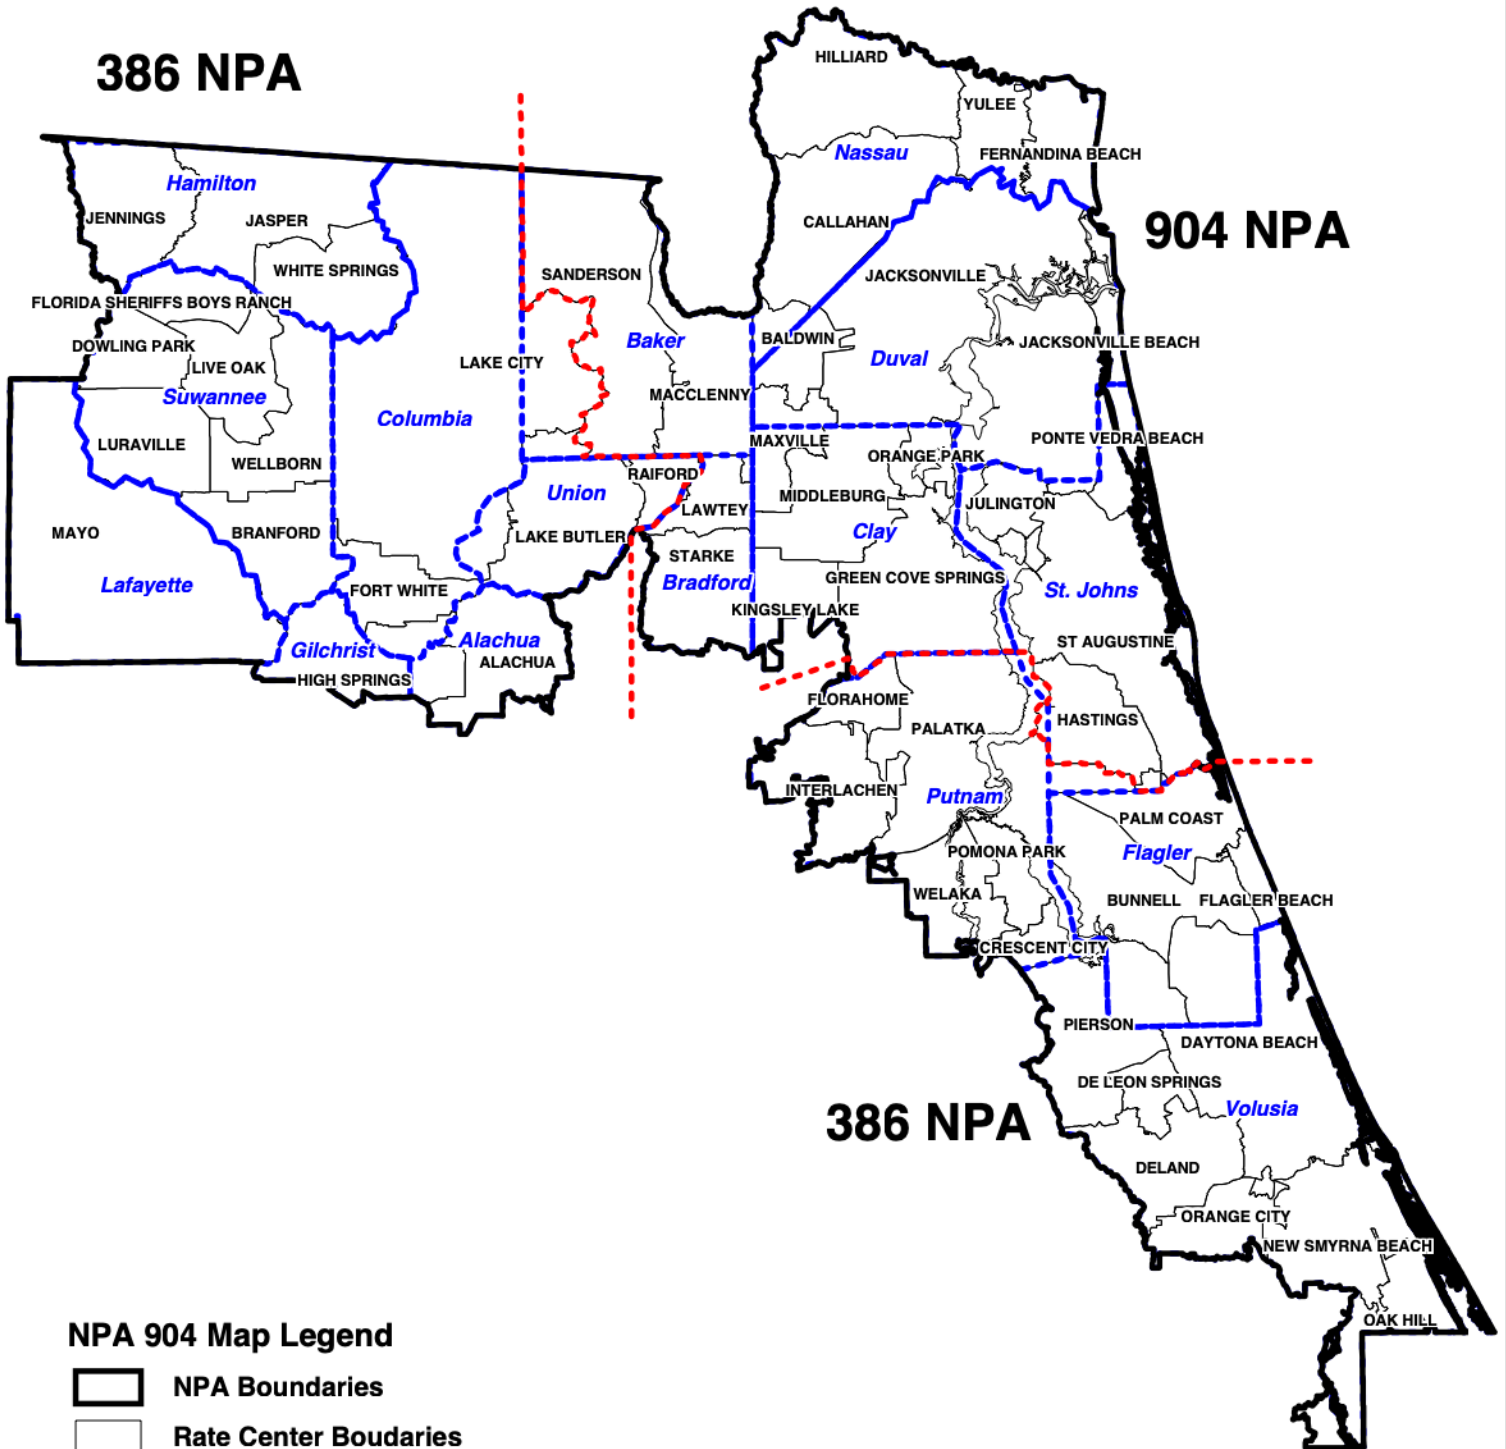

All international and domestic Carriers should ensure that the new 386 NPA has been activated throughout their networks prior to February 15, 2001. Test calls to verify routing to the 386 NPA can be made by dialing the test number in the Daytona Beach rate center, (386) 252-2097, or the test number in the Lake City rate center, (386) 752-7851. The test numbers will be available no later than February 1, 2001. They will remain available until February 5, 2002. A recorded announcement will indicate that the test call has been successfully completed.

After the end of permissive dialing, recorded announcements will direct callers who dialed the old area code to hang up and redial the call using the correct area code. These announcements will remain in effect until February 5, 2002, at a minimum.

General questions concerning the relief of the 904 NPA should be directed to Thomas C. Foley, NPA Relief Planner – Eastern Region NANPA, at (407) 389-8929. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.
