

Number: PL-254  
Date: January 2, 2000  
From: North American Numbering Plan Administration (NANPA)  
Subject: 334 NPA Split, Creating 251 NPA (Alabama)

---

On October 2, 2000, the Alabama Public Service Commission approved a two-way geographic split as the relief method for the 334 NPA that serves Alabama. The relief plan calls for the 334 NPA to be retained by areas which include Montgomery, Auburn, Dothan and Demopolis, while introducing a new NPA, 251, for the remainder of the current NPA area. The attached map delineates the NPA boundaries after the split.

Also attached is a listing of the current 334 NPA central office codes (NXXs) that will remain in the 334 NPA and those that will move to the new 251 NPA. This information is current as of November 20, 2000. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available from Telcordia Technologies, Traffic Routing Administration (TRA), at 732-699-6700.

The split of the 334 NPA, and the beginning of the permissive dialing period, will take place at 12:01 AM Central Time on June 18, 2001. The permissive period will end at 12:01 AM Central Time on January 7, 2002. During the permissive period, either the 334 or 251 NPA will be acceptable in a dialed number terminating in the new 251 NPA. After the permissive period, all calls dialed with the incorrect NPA will be routed to intercept.

The permissive dialing period has been extended until February 12, 2003, for wireless NXXs effective prior to June 18, 2001. The affected NXXs have been marked in the attached listings. Carriers must notify NANPA Central Office Code Administration within 30 days of the date of this letter of any discrepancies in the list. Wireless service providers are encouraged to utilize NXX codes in the new 251 NPA after June 18, 2001 to avoid the unnecessary reprogramming of wireless handsets.

After the beginning of mandatory dialing on January 7, 2002, the predominant dialing plan for the 334 and 251 NPAs will be as shown below. Other dialing plans may apply at the discretion of the local service provider.

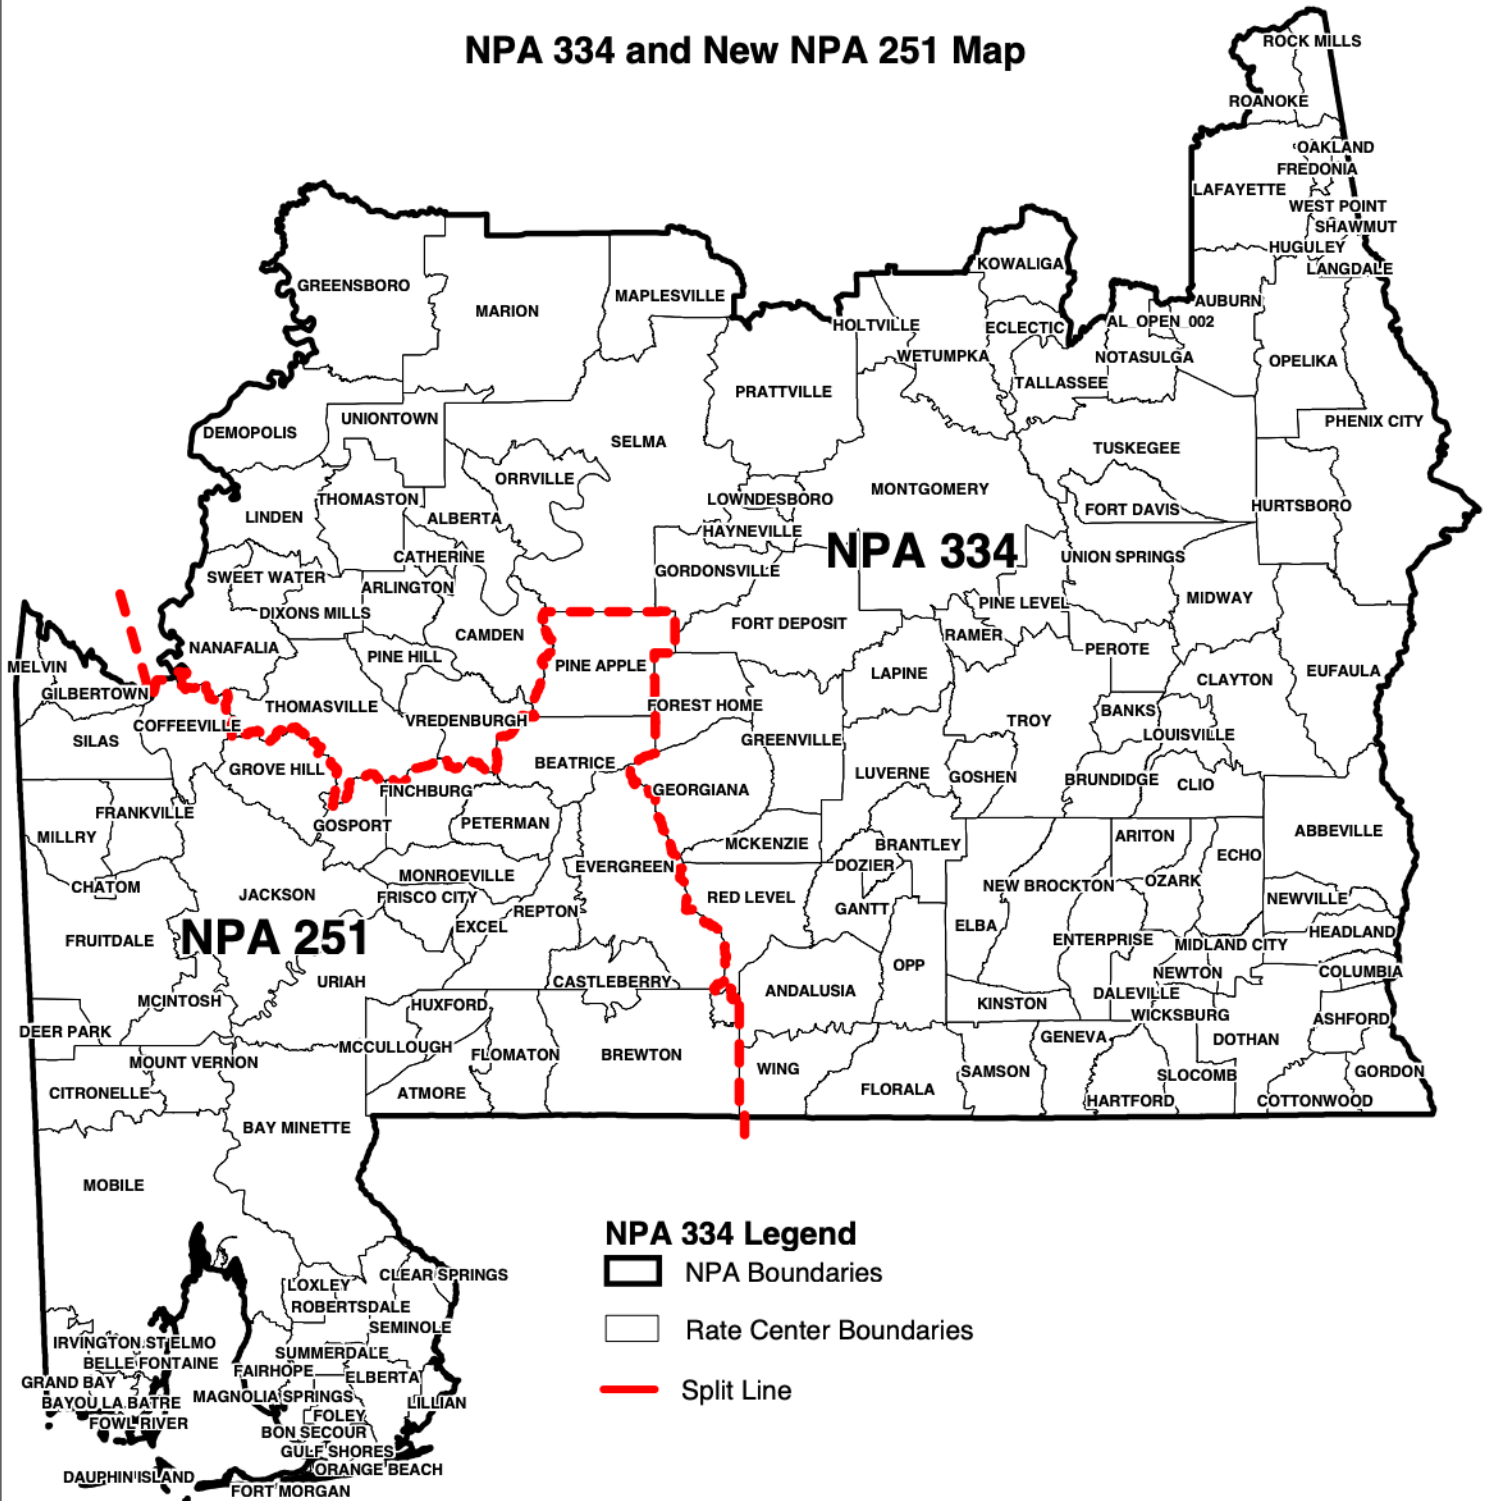

- All intra-NPA local calls will be dialed as 7 digits (NXX +XXXX)..
- All inter-NPA local calls will be dialed as 10-digits (NPA+NXX+XXXX), except in specific areas where 7-digit cross-boundary dialing is applicable.

- All Inter-NPA toll calls will be dialed as 1+10 digits (1+NPA+NXX+XXXX).
- All operator-assisted calls, including credit card, collect, and third-party calls, will require the prefix "0" and 10 digits (0+NPA+NXX+XXXX).

All international and domestic carriers should ensure that the new 251 NPA has been activated throughout their networks prior to June 18, 2001. Test calls to verify routing to the 251 NPA can be made by dialing 251-431-9020. The test number will be in service beginning May 18, 2001, until February 11, 2002. A recorded announcement will indicate that the test call has been successfully completed.

General questions concerning the relief of the 334 NPA should be directed to Frank Colaco, Senior NPA Relief Planner NANPA, on 973-740-9100. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.

### NPA 334 and New NPA 251 Map

\* Alternative #1 New NPA 251 includes Melvin Rate Center in Jackson MS Lata (482) and Clear Springs Rate Center in Pensacola FL LATA (44813)
