

Number: PL-302  
Date: September 26, 2001  
From: North American Numbering Plan Administration (NANPA)  
Subject: Amended 501 NPA Split Creating 479 NPA (Arkansas)

---

On August 16, 2001 NANPA issued a planning letter (PL-295) announcing the split of the 501 NPA, and the assignment of the 479 NPA, in accordance with an order (docket number 00-267-U, Order 6) by the Arkansas Public Service Commission (“Commission”). On September 13, 2001 the Commission issued a new order (Order 8), which revises its previous relief decision and modifies the split boundary line of the 501 NPA. Accordingly, PL-295 is superseded by the issuance of this planning letter.

The new 479 NPA will serve the western portion of the existing 501 NPA. Some of the areas to be served by NPA 479 include Bentonville, Clarksville, Fort Smith, Hector, Springdale, and Fayetteville. The attached map identifies the NPA boundaries after the split takes effect.

Also attached is a listing of the 501 NPA central office codes, rate centers, and Common Language Location Identifiers (CLLI) that will remain in the 501 NPA and those that will move to the new 479 NPA. This information is current as of September 24, 2001. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Technologies, Traffic Routing Administration (TRA), at 732-699-6700.

The split of the 501 NPA and the beginning of the permissive dialing period, will take place at 12:01 AM (Central) on January 19, 2002. The permissive dialing period will end at 12:01 AM (Central) on July 20, 2002. During the permissive dialing period, either the 501 or 479 NPA code will be acceptable in a dialed number terminating in the new 479 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept. There will be a 60-day period beyond the start of mandatory dialing before NXXs will be reassigned in the 479 and 501 NPAs. Accordingly, the earliest effective date for NXXs assigned in the 479 NPA will be September 20, 2002.

After the beginning of mandatory dialing on July 20, 2002, the dialing plan for the 479 and 501 NPAs will be as follows:

- All local calls terminating within the home NPA will be dialed as 7-digits (NXX+XXXX).
- All local calls terminating within a foreign NPA will be dialed as 1+10-digits (1+NPA+NXX+XXXX).
- All toll calls will require dialing “1” followed by 10 digits (1+NPA+NXX+XXXX).

- All operator-assisted calls, including credit card, collect, and third-party calls will require dialing "0" followed by 10-digits (0+NPA+NXX+XXXX).

All international and domestic carriers should ensure that the new 479 NPA has been activated throughout their networks prior to January 19, 2002. Test calls to verify the routing to the 479 NPA can be made by dialing 479-999-1111. The test number will be in service beginning December 19, 2001 through August 20, 2002. A recorded announcement will indicate that the test call has been successfully completed.

General questions regarding the relief of the NPA 501 should be directed to Frank Colaco, Senior NPA Relief Planner NANPA, on 973-740-9100. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.
