

Number: PL-311

Date: November 21, 2001

From: North American Numbering Plan Administration (NANPA)

Subject: 561 NPA Split, Creating 772 NPA (Florida)

On October 6, 2000, the Florida Public Service Commission issued Order No. PSC-00-1937-PAA-TL in Docket No. 990456-TL specifying a two-way geographic split as the relief method for the 561 NPA but withheld implementation. IN Order No. 01-2145-PCO-TL, dated November 1, 2001, the Commission set implementation dates. The 561 NPA currently serves Palm Beach and the Treasure Coast of Florida. The relief plan calls for the 561 NPA to be retained by the rate centers predominantly in Palm Beach County while introducing a new NPA, 772, for the remainder of the current 561 NPA area, including Martin, St. Lucie, Indian River, and part of Brevard Counties. The attached map identifies the NPA boundaries after the split.

Also attached is a listing of the current 561 NPA central office (NXX) codes, rate centers, and Common Language Location Identifier (CLLI) that will remain in the 561 NPA and those that will move to the new 772 NPA. This information is current as of November 9, 2001. Since NXX information may change over time, consult the Local Exchange Routing Guide (LERG) or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Technologies, Traffic Routing Administration (TRA), at 732- 699-6700.

The split of the 561 NPA, and the beginning of the permissive dialing period, will take place at 12:01 AM Eastern Time on February 11, 2002. The permissive period will end at 12:01 AM Eastern Time on November 11, 2002. During the permissive period, either the 561 or 772 NPA code will be acceptable in a dialed number terminating in the new 772 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept.

After the beginning of mandatory dialing on November 11, 2002, the dialing plan for the 561 and 772 NPAs will be as follows:

- All local calls terminating in the home NPA will be dialed as 7-digits (NXX+XXXX).
- All local calls terminating in a foreign NPA will be dialed as 10-digits (NPA+NXX+XXXX) without a prefix.
- All ECS calls directed to a presubscribed carrier will be dialed with a prefix "1" and ten digits (1+NPA+NXX+XXXX).

- All toll calls will require the prefix "1" and ten digits (1+NPA+NXX+XXXX).
- All operator-assisted calls, including credit card, collect, and third party calls, will require the prefix "0" and 10 digits (0+NPA+NXX+XXXX).

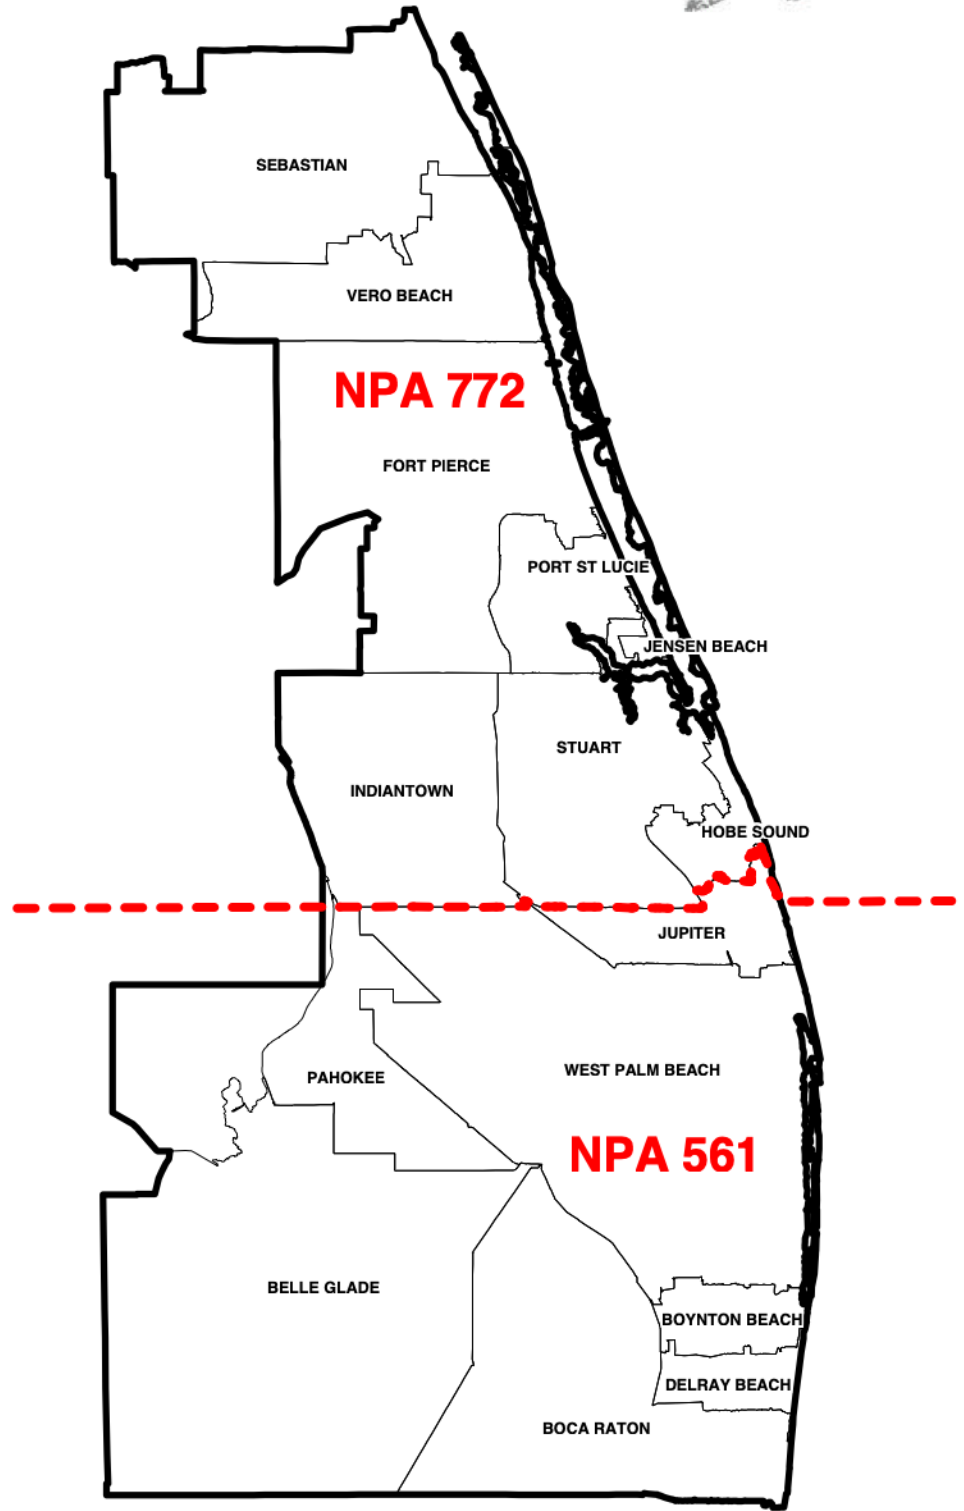

All international and domestic Carriers should ensure that the new 772 NPA has been activated, and tested, throughout their networks prior to February 11, 2002. Test calls to verify routing to the 772 NPA can be made by dialing the test number (772) 227-2002. The test number will be available no later than January 11, 2002. It will remain available until February 11, 2003. A recorded announcement will indicate that the test call has been successfully completed.

After the end of permissive dialing, recorded announcements will direct callers who dialed the old area code to hang up and redial the call using the correct area code. These announcements will remain in effect until February 9, 2003, at a minimum.

The information in this planning letter reflects detailed information about NPA relief activities. The information has been derived from state commission orders and from industry implementation consensus decisions. The implementation of the plan described in this letter is the responsibility of individual service providers, and NANPA does not guarantee that the activities and plans will occur exactly as described herein.

General questions concerning the relief of the 561 NPA and implementation of the 772 NPA should be directed to Thomas C. Foley, NPA Relief Planner – Eastern Region NANPA, at (407) 389-8929. Questions of a technical nature should be directed to the NPA coordinator of the appropriate service provider.
