North American Numbering Plan Administration

**Number:** PL-327

**Date:** October 29, 2002

**Subject:** Extraordinary NPA-Specific Jeopardy Conservation Procedures  
Announced for the 812 NPA (Indiana)

**Related Previous Planning Letters:** None

---

## General Description

Because NXX code demand had increased beyond industry forecast, the 812 NPA is in jeopardy of exhausting before relief can be provided. According to the *Central Office Code (NXX) Assignment Guidelines* (document INC 95-0407-008, revision 9/27/02), “A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief.” The purpose of this notice is to announce that *extraordinary NPA-specific conservation* measures as defined in Section 9.3 of the *Central Office Code (NXX) Assignment Guidelines* have become necessary for the 812 NPA.

## General Information

All remaining codes in 812 NPA will be rationed through jeopardy procedures adopted by industry consensus on October 8, 2002. Rationing will continue until implementation of a relief plan approved by the Indiana Utility Regulatory Commission. The jeopardy procedures have been posted to the NANPA web site, [www.nanpa.com](http://www.nanpa.com).

## Contact Information

Questions concerning the relief of the 812 NPA should be directed to Frank Colaco, Senior NPA Relief Planner, at 973-740-9100. Questions concerning the extraordinary NPA-specific conservation procedures should be directed to Cheryl Dixon, Senior Code Administrator, at 925-363-8787.
