

Number: PL - 533
Date: 4 December 2019
From: Canadian Numbering Administrator (CNA)
Subject: NPA 354 to Overlay NPA 450/579 (area surrounding Montréal, Québec, Canada)
Related Previous Planning Letters: PL-526

In Telecom Decision CRTC 2019-347, dated 8 October 2019, the Commission approved the 450/579 Relief Planning Committee's report which recommended the indefinite deferral of implementation of overlay area code 354 to provide relief to area codes 450 and 579, and recommended that the 450/579 Relief Planning Committee reconvene if the projected exhaust date advances by 12 months or more.

Accordingly, the relief date of 24 October 2020, which was identified in Planning Letter 526, has been postponed indefinitely. The relief method and new area code 354 will be implemented when relief is required.

Background Information:

In Telecom Decision CRTC 2019-13 dated 2 February 2019, the Canadian Radio-television and Telecommunications Commission (CRTC) directed that relief for area codes 450/579 for the area surrounding Montréal, Québec, Canada be provided through a distributed overlay of new area code 354.

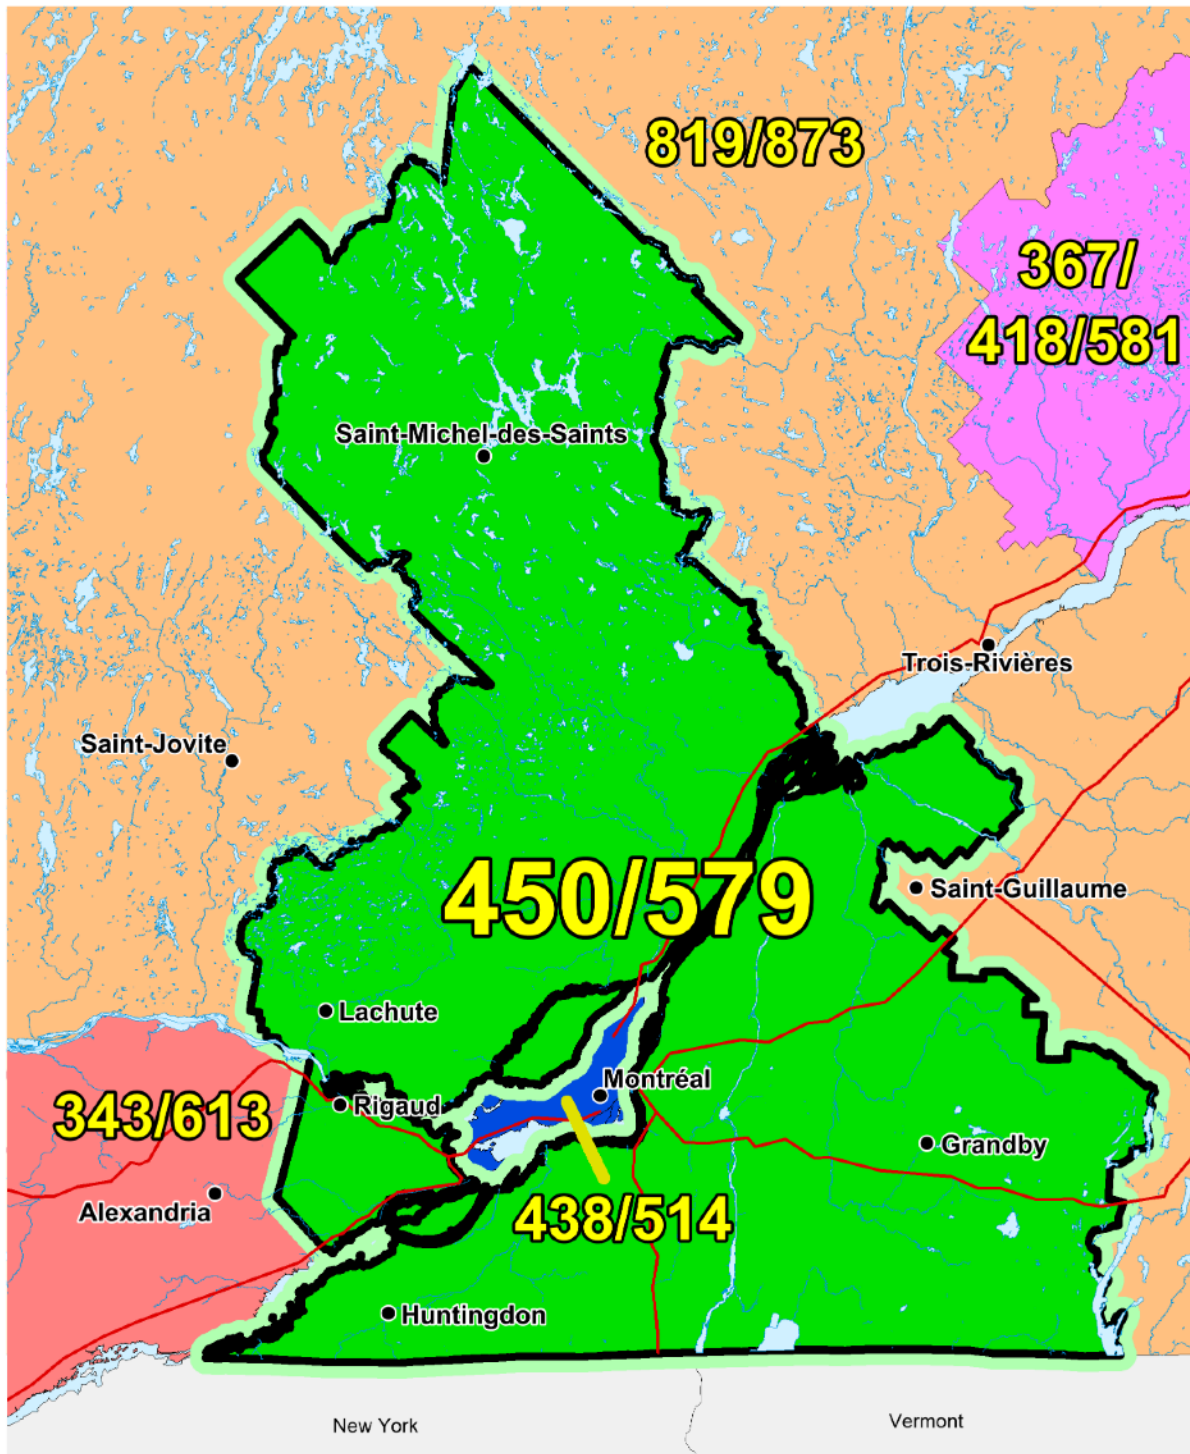

New area code 354 has been assigned by the North American Numbering Plan Administrator (NANPA) and will be implemented as a distributed overlay over the geographic area surrounding Montréal, Québec currently served by the 450 and 579 area codes. The area served by NPA Codes 450/579 and the new 354 NPA Code consists of 129 Exchange Areas, including Exchange Areas of Granby, Joliette, Laval-Est, Laval-Ouest, Longueuil, Pont-Viau, Sorel, Ste-Therese, St-Hyacinthe, St-Jean, St-Jerome, St-Lambert and Valleyfield in the area surrounding Montréal, Québec, Canada. A map showing the location of the area served by NPAs 450 and 579, and a list of the 129 Exchange Areas are attached to this letter.

General questions about this relief activity may be directed to Suresh Khare or Edward Antecol, of the Canadian Numbering Administrator (CNA), at 613-702-0016. Specific questions related to telecommunications services and network routing should be directed to the appropriate TSP.
